

First Results from the LHC and Their Physical Interpretation

Tuesday 19 October 2010 - Thursday 21 October 2010

IHEP, Protvino

Book of abstracts

Table of contents

Opening Address	1
Status of the LHC Machine	1
The CMS experiment: status, performance and selected results	1
Status of LHCb	1
ATLAS Status, operation and performance	1
CMS Silicon Strip Tracker Operation and Performance	1
CMS track reconstruction and performance during pp collisions at $\sqrt{s}=7$ TeV	1
Magnetic spectrometer based on the straw operated in vacuum environment	2
W/Z Physics at ATLAS	2
W/Z physics at CMS	2
Search for Scalar Leptoquarks Using Events Containing Two Leptons and Two Jets in CMS	2
First ALICE Results	2
Performance of the ATLAS Transition Radiation Tracker with Cosmic Rays and First High Energy Collisions at LHC	2
First searches for physics beyond the Standard Model at CMS	2
Early searches for new physics with the ATLAS detector	3
SM Higgs searches in the early ATLAS data	3
Prospects for physics with 1 fb^{-1} at CMS	3
Forward physics at CMS	3
Inclusive production of Ks and Lambda at $\sqrt{s}=0.9$ and 7 TeV	3
Russian Counterpart of LHC – Accelerator Complex U70 of IHEP	3
Neutral meson spectra measurements in pp collisions at 7 TeV with ALICE	3
Non-perturbative QCD measurements in ATLAS	4
ATLAS results on QCD	4
Photon physics in ALICE	4
J/Psi Physics at ATLAS	4
Expected b-quark production at the LHC	4
Top quark physics at CMS	4
Measurement of D-mesons production at LHC with ATLAS	4

Exclusive Bc-meson decays at LHC	5
Collective effects in multiparticle production at the LHC	5
LHC Machine and Detectors Status	5
On Early Physics Results from the LHC: Heavy Quarks, Gauge Bosons and Some Relic Stuff	5
Is the LHC to Trigger a Scientific Revolution?	5
Closing Address	5

Morning session / 12

Opening Address

Corresponding Author: nikolai.tyurin@cern.ch

Morning session / 13

Status of the LHC Machine

Corresponding Author: walter.venturini@cern.ch

Morning session / 14

The CMS experiment: status, performance and selected results

Corresponding Author: manfred.jeitler@cern.ch

Evening Session / 15

Status of LHCb

Corresponding Author: andrey.golutvin@cern.ch

Morning session / 16

ATLAS Status, operation and performance

Corresponding Author: sanya.solodkov@cern.ch

Morning session / 17

CMS Silicon Strip Tracker Operation and Performance

Corresponding Author: gaelle.boudoul@cern.ch

Morning session / 18

CMS track reconstruction and performance during pp collisions at $\sqrt{s}=7$ TeV

Corresponding Author: roberto.castello@cern.ch

Morning session / 19

Magnetic spectrometer based on the straw operated in vacuum environment

Corresponding Author: iouri.potrebenikov@cern.ch

Evening Session / 20

W/Z Physics at ATLAS

Corresponding Author: jose.enrique.garcia@cern.ch

Evening Session / 21

W/Z physics at CMS

Corresponding Author: javier.santaolalla.camino@cern.ch

Evening Session / 22

Search for Scalar Leptoquarks Using Events Containing Two Leptons and Two Jets in CMS

Corresponding Author: mikhail.kirсанов@cern.ch

Evening Session / 23

First ALICE Results

Corresponding Author: sergei.sadovski@cern.ch

Morning session / 24

Performance of the ATLAS Transition Radiation Tracker with Cosmic Rays and First High Energy Collisions at LHC

DITTUS, Fido¹; BOCCI, Andrea¹

¹ CERN

Corresponding Author: ruslan.mashinistov@cern.ch

Evening Session / 25

First searches for physics beyond the Standard Model at CMS

Corresponding Author: carmen.diez.pardos@cern.ch

Evening Session / 26

Early searches for new physics with the ATLAS detector

Corresponding Author: evgeny.sedykh@cern.ch

Morning Session / 28

SM Higgs searches in the early ATLAS data

Corresponding Author: ilya.tsukerman@cern.ch

Morning Session / 29

Prospects for physics with 1 fb⁻¹ at CMS

Corresponding Author: daniel.teyssier@physik.rwth-aachen.de

Morning Session / 30

Forward physics at CMS

Corresponding Author: andrei.sobol@cern.ch

Morning Session / 31

Inclusive production of Ks and Lambda at sqrt(s)=0.9 and 7 TeV

Corresponding Author: konstantin.beloous@cern.ch

Morning Session / 33

Russian Counterpart of LHC – Accelerator Complex U70 of IHEP

Corresponding Author: sergey.ivanov@ihep.ru

Morning Session / 35

Neutral meson spectra measurements in pp collisions at 7 TeV with ALICE

Corresponding Author: yuri.kharlov@cern.ch

Morning Session / 36

Non-perturbative QCD measurements in ATLAS

Corresponding Author: chiara.roda@cern.ch

Morning Session / 37

ATLAS results on QCD

Corresponding Author: korolkov@ifae.es

Morning Session / 38

Photon physics in ALICE

Corresponding Author: dmitri.peressounko@cern.ch

Morning Session / 39

J/Psi Physics at ATLAS

Corresponding Author: stefania.spagnolo@le.infn.it

Morning Session / 40

Expected b-quark production at the LHC

Corresponding Author: lidia.smirnova@cern.ch

Evening Session / 41

Top quark physics at CMS

Corresponding Author: sluca@ifca.unican.es

Evening Session / 42

Measurement of D-mesons production at LHC with ATLAS

Corresponding Author: leonid.gladilin@cern.ch

Evening Session / 43

Exclusive Bc-meson decays at LHC

LIKHOODED, Anatoli ¹; LUCHINSKY, Alexey ²

¹ State Res.Center of Russian Feder. Inst. of High Energy Phys. (IFVE)

² Institute for High Energy Physics, Protvino, Russia

Corresponding Author: alexey.luchinsky@ihep.ru

Evening Session / 44

Collective effects in multiparticle production at the LHC

TYURIN, Nikolai ¹

¹ Institute for High Energy Physics (IHEP)

Corresponding Author: sergey.troshin@cern.ch

Evening Session / 45

LHC Machine and Detectors Status

Corresponding Author: alexandre.zaitsev@cern.ch

Evening Session / 46

On Early Physics Results from the LHC: Heavy Quarks, Gauge Bosons and Some Relic Stuff

Corresponding Author: anatoli.likhoded@cern.ch

Evening Session / 47

Is the LHC to Trigger a Scientific Revolution?

Corresponding Author: vladimir.petrov@cern.ch

Evening Session / 48

Closing Address
