

Pisa Workshop on

Jet Reconstruction and Spectroscopy At Hadron Colliders

April 18-19, 2011

Polo Fibonacci, Building “C”

Pisa - Italy

Local Organizers:

G. Bellettini (chair)

P. Azzurri

M. Cascella

F. Scuri

C. Tofani (secretary)

The goal of the workshop is to review in detail and to stimulate an open discussion on technologies and methods in use or being developed for reconstructing jets, optimizing the measurement of their flavor and energy, and eventually making spectroscopy of jet systems possible
