ESIPAP 2014 - Module 1 - Physics of particle and astroparticle detectors

Monday 20 January 2014

Experimental Astroparticle and Cosmological Physics (10:45 - 12:15)

-Conveners: Juan Francisco Macias-Perez

time	[id] title	presenter
10:45	[0] Full lecture notes, tutorial on CMB experiments, tutorial on LSS experiments	MACIAS-PEREZ, Juan Francisco

Experimental Astroparticle and Cosmological Physics (15:45 - 17:15)

-Conveners: Juan Francisco Macias-Perez

Tuesday 21 January 2014

Experimental Astroparticle and Cosmological Physics **(10:45 - 12:15)**

-Conveners: Juan Francisco Macias-Perez

Experimental Astroparticle and Cosmological Physics: Tutorial 1. CMB experiments **(15:45 - 17:15)**

-Conveners: Juan Francisco Macias-Perez

Wednesday 22 January 2014

Experimental Astroparticle and Cosmological Physics **(14:00 - 15:30)**

-Conveners: Juan Francisco Macias-Perez

Experimental Astroparticle and Cosmological Physics: (tutorial) **(15:45 - 17:15)**

-Conveners: Juan Francisco Macias-Perez

Thursday 23 January 2014

Experimental Astroparticle and Cosmological Physics (14:00 - 15:30)

-Conveners: Francois Montanet

time	[id] title	presenter
14:00	[14] Experimental astroparticle physics : lecture 1	Prof. MONTANET, Francois

Experimental Astroparticle and Cosmological Physics: (tutorial) (15:45 - 17:15)

-Conveners: Francois Montanet

time	[id] title	presenter
15:45	[15] Experimental astoparticle physics : lecture 2	Prof. MONTANET, Francois

Friday 24 January 2014

Experimental Astroparticle and Cosmological Physics (10:45 - 12:15)

-Conveners: Francois Montanet

time	[id] title	presenter
10:45	[16] Experimental astroparticle physics : lecture 3	Prof. MONTANET, Francois

Experimental Astroparticle and Cosmological Physics: (tutorial) (15:45 - 17:15)

-Conveners: Francois Montanet

time	[id] title	presenter
15:45	[17] Experimental astroparticle physics : tutorial	Prof. MONTANET, Francois
