5th International Workshop on Mechanisms of Vacuum Arcs (MeVArc 2015)

Wednesday 2 September 2015

Vacuum breakdown phenomena in various applications (I) **(09:00 - 10:30)**

-Conveners: Kai Nordlund

time	[id] title	presenter
09:00	[4] Directions in High-Gradient Radio-Frequency Applications	WUENSCH, Walter
09:30	[5] High-gradient accelerating structure at Tsinghua University	SHI, Jiaru
10:00	[6] Voltage Breakdown initiated by electrostatic microdischarges of metal-vacuum interface. A model proposal.	DE LORENZI, Antonio
