ScienceMesh: An Interoperable Federation of EFFS services for European Open Science Cloud

Tuesday 25 January 2022 10:20 (20 minutes)

ScienceMesh (sciencemesh.io) is an interoperable research platform developed for the European Open Science Cloud by the cs3mesh4eosc.eu project.

ScienceMesh enables seamless sharing and collaboration on data between sites running different EFSS platforms (Owncloud, Seafile and Nextcloud).

In this presentation we will give a summary of the status of the integration with EFSS platforms and outlook for 2022.
