

UNIVERSITÉ  
DE GENÈVE

Contribution ID: 43

Type: **Poster**

## Planned Open Access Solution at the University of Pardubice

The poster focuses on the Digital Library of the University of Pardubice and its planned connection on the university bibliographic system which registers the bibliographic records about the university research outputs. The project supposes the possibility of the full text submitting, checking against the SHERPA/RoMEO and routine exports to the Digital Library of the University of Pardubice.
