

# GGUS Ticket review

T1 Service Coordination Meeting  
2010/12/02

## GGUS tickets of concern to the experiments:

- ATLAS:

- [GGUS:61440](#) CNAF: transfer problems to BNL. Primary network path was due for restore in operation on Nov. 24<sup>th</sup>. Ticket is 'solved' in GGUS but still present as the only ongoing issue on the ADCOperations twiki. If forgotten, please remove.

- CMS:

- No reply → No issues (?)

- ALICE:

- No issues.

- LHCb:

- Still on-going problem with IN2P3 shared area.
