

Symposium on Scientific Archives

27-28 June 2023, Virtual Event

Call for Papers

On the occasion of the International Archives Month and the 75th Anniversary of the International Council on Archives, the symposium is intended to be an opportunity to bring archivists and records managers working with scientific collections together to share challenges, experience, opportunities and build a community of practice.

Topics

- Advocacy for the archive and archive processes within the organizations
- Archival policy frameworks with a focus on digital archiving
- Classification of records and levels of access
- Digital preservation strategies and approaches
- Digitization strategies
- Acquisition and transfer of records to historical archives

Organizers

- CERN Archive
- EMBL Archive
- EUROfusion Consortium
- GSK's heritage archives
- Wellcome Sanger Institute Archive

Deadline for abstract submission:

6 June 2023
