The Zope Foundation

Wednesday, 11 July 2007 09:00 (30 minutes)

The Zope Foundation was incorporated last year. Its aim is to take over the whole intellectual property “Zope” from Zope Corporation and lead Zope’s further development as OpenSource software, but now owned by a non-profit organisation.

This talk is about the future of Zope from the point of view of the Zope Foundation. Two members of the ZF Board of Directors, Martijn Faassen and Aroldo Souza-Leite, will be present.

Summary

The future of Zope from the point of view of the now one year old Zope Foundation. Two ZF directors will be present.
