

RICAP'07 - Roma International Conference on Astroparticle Physics

Thursday, 21 June 2007

Parallel Session: Antimatter detection in space - Aula Magna Rettorato (11:30 - 13:00)

time	[id] title	presenter
11:30	[48] Dark matter, cosmological constant and neutrino mixing	VITIELLO, Giuseppe
11:45	[49] Solar and heliospheric cosmic ray observations with PAMELA experiment	CASOLINO, Marco
12:00	[50] The Time-of-Flight system of the PAMELA experiment: in-flight performances	CARBONE, Rita
12:15	[51] Cosmic-ray Astrophysics with the AMS-02 experiment	OLIVA, Alberto
12:30	[52] Dark Matter Searches with AMS-02	CARDANO, Francesco Maria
12:45	[53] Antiproton and Positron Signal Enhancement in Dark Matter Mini-Spikes Scenarios	LAVALLE, Julien
