

CERN Colloquium

SPEAKER: Dr. Fernando Quevedo (ICTP - Trieste (IT))

TITLE: **ICTP: A Successful Model of International Scientific Collaboration**

DATE: Thu 08/11/2012 16:30

PLACE: Main Auditorium

ABSTRACT

The importance of international scientific collaboration in the changing world where the centre of gravity of fundamental research may be moving towards the east and the south is addressed.

The unique role of ICTP in supporting global science is highlighted.
