

XXIV Workshop on Weak Interactions and Neutrinos - WIN'13

Monday, 16 September 2013 - Saturday, 21 September 2013
Natal, Brazil

Scientific Programme

This year's workshop will deal with contemporary issues on the following four major topics:

Electroweak symmetry breaking

Neutrino Physics

Weak Decays, CP violation and CKM

Astroparticle Physics

Working Group 1

Electroweak Symmetry Breaking

Working Group 2

Neutrino Physics

Working Group 3

Weak decays, CP violation and CKM

Working Group 4

Astroparticle Physics

Plenary Session
