

# LHC Seminar

**SPEAKER:** Maurizio Pierini (CERN)  
**TITLE:** **New Results from Searches for New Physics at CMS**  
**DATE:** Tue 26/02/2013 11:00  
**PLACE:** TH Conference Room

## **ABSTRACT**

We present an update on a number of searches for new physics beyond the standard model, based on the recent LHC data. Emphasis will be given to presenting the most recently completed searches, including several with the full statistics of  $\sim 20/\text{fb}$  recorded by the CMS experiment in 2012.
