eGEE
Enabling Grids
for E-science

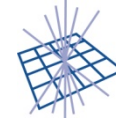

JSPG

- Joint Security Policy Group
- Prepares and maintains security policy
 - For EGEE
 - For WLCG
- Policies approved and adopted by Grid management
- Aim for general common policies useable by many Grids
 - OSG has played key role here, e.g. Grid AUP
- Tackle scaling problems of large numbers of sites, VOs
 - Single policy applies to VO (at ALL sites)

Look at two policies

- *Grid Security Traceability and Logging Policy*
- *Policy on Grid Multi-User Pilot Jobs*
- Both documents are close to being finalised
 - A small number of comments need to be included
 - Then will go for formal approval

Traceability and Logging

- *Grid Security Traceability and Logging Policy*
 - V1.7a (2 Feb 08)
 - replaces “Security Audit Requirements”
 - <https://edms.cern.ch/document/428037/2>

Pilot jobs

- *Policy on Grid Multi-User Pilot Jobs*
 - V0.4a (30 Jan 08)
 - <https://edms.cern.ch/document/855383/1>
