

CTF3 Committee

First meeting 18.4.2008

G.Geschonke
CERN

Motivation

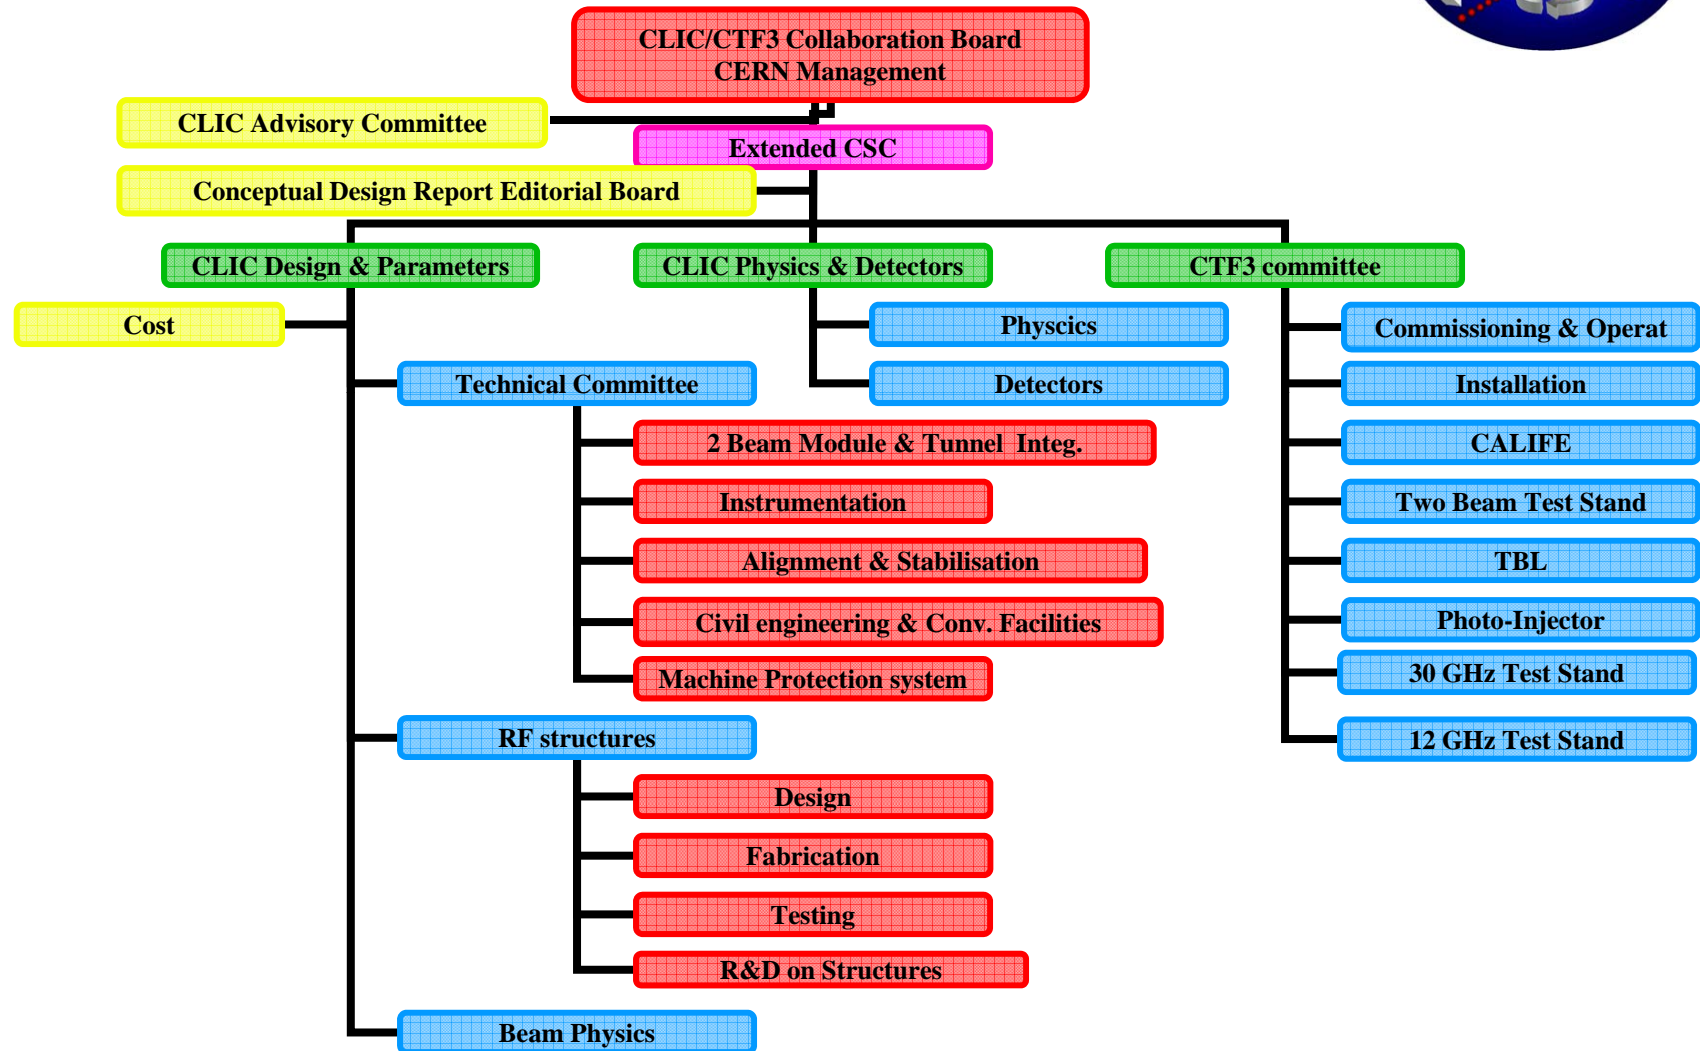

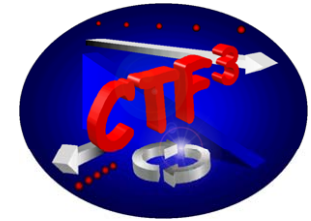

CTF3 Collaboration Board:

Regular meetings (once a month) for better coordination and information between Collaborators

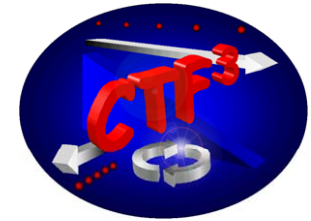

Proposal from T.Ekelof:

follow example of physics experiments: CTF3 Committee

CLIC Chart

Mandate

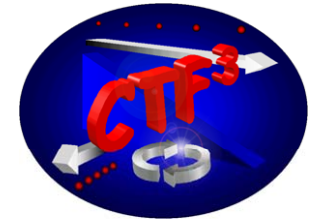

- provide a forum to facilitate the flow of information inside the CTF3 collaboration about the advancement of the project,
- coordinate the activities of the collaboration partners concerning the CTF3 machine, in particular the operation schedule of the different CTF3 components.

Members are the team leaders of the collaboration, or people designated by them, as well as the local CTF3 project management. The meetings will be open, the members are free to invite people which they think can contribute.

Meetings will be held monthly

Membership

Initial members:

Team leaders,

H.Braun, Deputy project leader
