

Masterclasses Hands on Particle Physics 2008 in Poland

Jacek Szabelski, IPJ – Lodz - Poland

28 Feb. Krakow, Institute of Nuclear Physics: MC at high school,
50 students

4 March, Poznan, Institute for Nuclear Studies (Lodz), MC at high school,
60 students, 8 teachers

6 March, Warsaw, Institute for Nuclear Studies, MC at high school,
30 students

10 March, Lodz, Institute for Nuclear Studies, MC at high school,
100 students, 6 teachers

11 March, Katowice, University of Silesia,
MC at the University,
6x20 = 120 students

Teacher's day:

3 March, Warsaw, Institute for Nuclear Studies

3 March, Katowice, University of Silesia

Masterclasses Hands on Particle Physics 2008 in Poland

The 22nd EPPOG Meeting, Prague, 18-19 April 2008

Masterclasses Hands on Particle Physics 2008 in Poland

Comments: GREAT (as usual) !!!!

Small problems:

- audio from CERN (only from CERN)**
- quiz questions (content and translation)**

Masterclasses Hands on Particle Physics 2008 in Poland

Different concept for video conference

(Piotr Zalewski, IPJ-Warsaw):

15' lecture talk from CERN

5' questions to the lecturer

10' summary of student excercises results

20' quiz (questions related to the lecture and student work, only)

10' other questions to CERN and general discussion

Comments:

results from students exercises shall be transmitted by e-mail or chat;

lecture slides shall be sent earlier to organizers and displayed locally;

lecture topic shall not be addressed during introductory lectures;

lecture topic might not be related to student exercises.
