FE General Purpose DB Instances (IT-DB-DBF)

- Provide database Services based on Oracle for general purpose applications (not for experiments, not for EDMS, not for CASTOR, not for accelerators, not for AIS).
- It includes database related application servers (Forms, PL/SQL gateway and Apex).
- Production services are deployed using a high-availability setup.

Actions

- [Report an incident](#)
- [Submit a general request](#)

Information

Supported Services

Essential for:

- [Drupal Service](#)
- [General Purpose Database Service](#)

Important for:

- [J2EE Web Hosting Service](#)
- [JIRA Service](#)
- [Network Database and Registration Service](#)
- [SDB Application Support \(R\)](#)
- [SLS/SSB Service Status Application Support \(R\)](#)

[Show more](#)

Necessary for:

- [Campus Network Service](#)
- [CVS Service](#)
- [Datacenter Network Service](#)
- [GIT Service](#)
- [GRID Development Service](#)

[Show more](#)

Knowledge Base Articles

- [General Purpose DB Instances KB Articles](#)

Activities

- installation, patching, performance optimisation, planning for evolution, general database consultancy, backup, backup validation, restore on demand, security audit and improvement for the database service (not for the applications)

Provided Goods and Products

- database services, reachable on the CERN internal networks, deployed on Linux clusters.
- cerndb1 / accdb, devdb10, trainingdb, itcore, hacldb, csr, lemonops, lemonrac, rmdy
- Oracle database Support entry point

Additional information

- [Oracle Documentation at CERN](#)
- [Oracle Technology Network](#)
- [Oracle training and tutorials](#)

Cannot find what you need here? Do you simply need advice or assistance? The [Service Desk](#) is here to help. Call the Service Desk on: **77777** (07:30 - 18:30 work days, Geneva time)

CERN Service Desk

<http://cern.ch/service-portal>

Service Central pour toute demandes

- ▶ Du Lundi au Vendredi de 7h30 à 18h30 non stop
- ▶ Tel: 77777
- ▶ Build. 55, 2^{eme} étage, accueil des utilisateurs
- ▶ Email: service-desk@cern.ch

Prise en compte, traitement
ou redirection de vos demandes

Obtenir un compte

1. Au Service Enregistrement (Bat 55/1), vos comptes 'Primary', mail et EDH sont créés, en même temps que votre carte d'accès,
2. Activation des comptes au Service Desk (B 55/2-001)
 - ▶ Borne au Service Desk avec carte d'accès
 - ▶ Envoyant un scan de votre pièce d'identité avec e-mail extérieur au Service Desk

➔ Mots de passe temporaire: 1/ 'Primary Account' 2 / Signature EDH

1. Changez immédiatement vos 2 mots de passe
2. 5 vrais jours pour suivre le cours de sécurité et signer le règlement informatique OC5

Main Menu

Please select carefully the action you want to perform on the system - Should you choose the wrong option, your request may be refused or introduce additional delays in its execution.

View the registered information about a device

Select this if you want to display information about a device registered in our databases.

Update the registered information about a device

Select this if you want to correct information about a device such as Responsible person, operating system, interface cards, IP name or aliases,.... You cannot use this link if you request change of domain (see service change). You must also use this option if you want to change access in the Main CERN Firewall.

New Connection of a device

Select this when a computing device has to be connected for the first time to the CERN computer network. Once the request has been filled, you will be provided with all the information needed to connect this device (e.g. IP address). For Portables, use "Portable Computer Registration".

New Connection of a Terminal

Select this when a Simple RS232 Serial Connection has to be performed. If you do not want to connect over low speed RS232 protocol, use 'New Connection of a device'.

Move and Reconnection of a device

Select this when a device which is already connected to the CERN network has to be moved physically to a new place where it has to be reconnected to the network.

Removal of a device

Select this when you want to disconnect a device from the CERN network (permanently or not).

Service Change of a device

Select this when a device which is already connected to the CERN network needs to use a different type of Network service, or changes its medium type (e.g. moves from Ethernet to Fast-Ethernet) without geographical move, or if you want to change Domain.

Portable Computer registration

Select this when you want to register a Portable Computer at CERN which will ONLY connect to Portable outlets; You will not get any IP address, nor any dedicated plug on the network! DO NOT use this if you want to register a device (Portable or not) which will connect (at least once) to a regular plug.

Connect Portable Outlet

Select this when you want to request a new Portable outlet in an office.

Disconnect Portable Outlet

Select this when you want to request the removal of a Portable outlet in an office.

Last Operation

Select this when you want to know the status of a submitted request

Connecter mes appareils

MAIS

Ne faire aucune modification non autorisée au réseau du CERN

- ▶ Utiliser les services mises a disposition (impression, wifi)
- ▶ Nous contacter si des besoins ne sont pas couverts

Dans le respect des règles de sécurité notamment

Suivez les règles informatiques

<http://cern.ch/computingrules>

- ▶ Dans le milieu académique du CERN (comme à la maison) vous êtes responsable de la sécurité de vos ordinateurs, fichiers, programmes, services
- ▶ L'équipe de sécurité informatique et le département IT sont là pour vous aider dans cette tâche
- ▶ Votre activité ne doit pas être illégale, commerciale, politique, offensive
- ▶ N'est pas autorisé : consultation de matériel pornographique ou autre matériel illicite (e.g. incitation à la violence, discrimination)

Protégez vos ordinateurs

Utilisez un logiciel anti-virus et appliquez les mises à jour de sécurité régulièrement

L'anti-virus CERN est gratuit pour l'utilisation domestique

Prudence avec emails et web

Stop - réfléchissez - cliquez

N'ouvrez pas les liens, emails ou pièces jointes inattendues ou suspectes

Protégez vos mots de passe

Ils sont personnels
Faites-les complexes
Ne les réutilisez pas
Ne les publiez pas
Protégez votre écran

Respectez le droit d'auteur

Ne distribuez pas de matériels avec des droits d'auteurs

Evitez les applications de partage de fichiers ou des services d'hébergement

Pour la sécurité

- ▶ Utilisez les services IT & laissez IT s'occuper de la sécurité
- ▶ Bénéficiez de formation et d'aide:
<http://cern.ch/security>
computer.security@cern.ch
<http://cta.cern.ch>

- » Technical Training

Welcome to the CERN Training Catalogue. Please use the form below to search among the 270 available courses.

Course Programme Has Upcoming Sessions

11 courses found. Please select one from the results below.

»Office software

	Next Session	Duration	Language	Availability
Secure e-mail and Web browsing	to be scheduled	1.5 hours	English or French	14 more people needed

»Software and system technologies

	Next Session	Duration	Language	Availability
Core Spring	to be scheduled	4 days	English	to be scheduled
Developing secure software	02-Oct-12 to 02-Oct-12	3.5 hours	English	4 places available
Intermediate Linux System Administration	15-Nov-12 to 21-Nov-12	5 days	English	One more place available
Introduction to Linux System Administration	15-Oct-12 to 18-Oct-12	4 days	English	3 places available
Secure coding for Perl	22-Oct-12 to 22-Oct-12	8 hours	English	8 places available
Secure coding for Python	to be scheduled	8 hours	English	3 more people needed
Secure coding in C/C++	28-Sep-12 to 28-Sep-12	1 day	English	5 places available
Securing Java Applications	to be scheduled	1 day	English	5 more people needed
Securing Java and Web Applications	to be scheduled	1 day	English	4 more people needed
Securing PHP Web Applications	to be scheduled	1 day	English	5 more people needed

an AIS project. Please contact Ais.Support@cern.ch for support.
