

# Present status of preparations for MPI@LHC 2014 in Krakow

Local Organizing Committee

Institute of Nuclear Physics (PAN)

meeting with Advisory Board

23 October 2014

# Scientific issues

- 1 Number of registrants - 69 (slowly growing)
- 2 Number of abstracts - 64
- 3 Talk structure:  
UE - 15; DPS - 17; Small-x - 20; Nuclei - 9
  - We thank convenors for good work.
- 4 Temporary time table has been prepared
  - We ask you to read it and give eventual comments and suggestions for modifications.
- 5 We assume that convenors will lead sessions.
- 6 Discussion session.
  - We propose 2 separate parts (on Thursday and Friday)
  - on Thursday: 12:40 - 13:20 (DPS and UE)
  - on Friday: 12:35 - 13:30 (small-x @ diffraction, collisions with nuclei)

Convenors will prepare topics for discussion.

It looks that not all convenors will participate in the conference.

Do we need a chair person(s) for the discussion session?

# Technical issues

- 1 We have agreement with PAU concerning concerence venue.
- 2 We have selected company for coffe breaks and lunches.
- 3 Excursion on Thursday (40km from Krakow), busses have been reserved
- 4 So far only a few people paid the conference fee.
  - Money transfer before the conference would be much more convenient for us.
  - We intend to send a letter to participants asking for transfer of money before the conference.
