

Advanced Optics Control Workshop

5-6 February 2015, CERN

The Advanced Optics Control workshop aims at reviewing recent advancements in optics measurement, correction, and understanding from colliders and synchrotrons around the world. This workshop may be regarded as the third of a series after the meeting in [OMCM \(2011\)](#) and [OMC \(2013\)](#).

Organizers

Mei Bai
Giuliano Franchetti
Massimo Giovannozzi
Mike Lamont
Rogelio Tomas Garcia
Frank Zimmermann

Secretary: Delphine Rivoiron
