

**JACoW 2008 Team Meeting  
17-20 November, 2008  
KEK, Tsukuba**

**Experience with the Refereeing Module at  
FEL'08**

Christine Petit-Jean-Genaz, CERN  
EPAC Conferences Coordinator  
JACoW Secretary  
FEL'08 Editor

# Original Philosophy

- Staged approach, separating the two activities:
  - Upload of contributions by authors and initial processing by editors, assigning dots (green means OK to referee)
  - Refereeing by designated referees (once the system parameter has been set to allow refereeing activity)

# Problem is ...

This philosophy does not allow

- Continued upload of contributions by participants

AND

- Refereeing of those papers which have received a green dot

# Request to Matt

Take into consideration that contributors do not respect submission deadlines, requiring that we:

- *Allow the two activities in parallel:*
  - *File upload by contributors*
  - *Refereeing of papers already processed*
