

DPF 2009**Thursday, 30 July 2009****Beyond the Standard Model III (14:00 - 17:50)**

time	[id] title	presenter
14:00	[449] Assortment of Di-Lepton Signatures and Physics Beyond the Standard Model	HALYO, Valerie
14:40	[194] Model Independent Search for New Physics in Leptonic Final States with the D0 Detector	LINNEMANN, James
15:00	[35] Early Searches for Contact Interactions in the Dimuon channel at ATLAS	THOMPSON, Emily
15:20	[129] Discovery Potential for Di-lepton and Lepton+Emiss Resonances at High Mass with ATLAS	Ms PEDRAZA, Isabel
15:40	[439] Search for Extra Dimensions in the Diphoton Channel	ESEN, Selda
16:00	break	
16:30	[414] Searching for Majorana Neutrinos in the Like-Sign Dilepton Final	CLARIDA, Warren James
16:50	[359] Identification of Extra Neutral Gauge at the LHC	GODFREY, Stephen
17:10	[270] Search for New Physics in rare processes in the B meson systems by LHCb	BETTLER, Marc-Olivier
17:30	[295] The Fourth Generation in Extensions of the Standard Model	Dr DE PREE, Erin
