

THE AUSTRALIAN NATIONAL UNIVERSITY

THE WIZARDS OF OZ: OPEN ARCHIVES
INITIATIVES DOWN UNDER

Structure of Presentation

- Adopting wide generic background of OAI
- Will not get into details such as current debate on precise definition of Open Access
- Aim to provide brief overview of background and current state of play in Australia
- Cover E-Prints/ E-Presses and digital repository movements in universities and National Library of Australia

Origins of Oz Initiatives

- Twin movements: “meeting” of science digital repositories, eg Geoscience Australia and E-Print Initiatives, usually from libraries
- Occasional misunderstandings between computer scientists and librarians as to definition of “digital libraries” term
- Issues are more than polemical debate on science serials

Oz E-Prints Origins

- ANU E-Prints launched September 2001
- Links particularly with SPARC and Raym Crow's drafts (then) for institutional repositories
- Need for both vision and ability to carry forward within institutional settings – Cliff Lynch's papers very helpful re administrators
- CAUL survey of E-Prints, January 2004

ANU E-Prints 2003

- 2000 documents lodged without sustained campaign of advocacy
- 219,306 pdf downloads: science, Asian studies and law predominate. Top article in science - 1765 downloads
- Top countries without spiders Oz/USA 62%. Top countries with spiders 80% USA/Oz
- Need for almost individual scholar advocacy in certain science disciplines

G08 Roadshow 2002

- Group of Eight Universities: Adelaide, ANU, Melbourne, Monash, Queensland, Sydney, University of NSW and University of Western Australia.
- Funded ANU Roadshow on E-Prints 2002 (see UK initiative 2004)
- Combination of advocacy advice and technical issues

The screenshot shows a Microsoft Internet Explorer browser window displaying the University of Melbourne E-Print Repository website. The browser's address bar shows the URL: <http://buffy.lib.unimelb.edu.au/eprints/home.htm>. The website header includes navigation links: Search, A-Z Directory, Contacting People, and About Us. A sidebar on the left lists: Search the Catalogue, Find Information, Opening Hours, and Contact Us. The main content area features the University of Melbourne crest and the text "Eprint Repository". Below this, a list of links is provided, each preceded by a right-pointing triangle:

- [Access the University of Melbourne Eprint Repository \(UMER\)](#)
- [About the University Eprint Repository - Aim - Benefits for the University](#)
- [UMER Collection Policy](#)
- [Eprint Loading Instructions](#)
- [Copyright requirements of specific journals](#)
- [Technical information about UMER](#)
- [How to link to your papers in UMER](#)
- [Frequently Asked Questions \(FAQ\)](#)
- [Copyright forms](#)

Below the list, the "Aim:" section states: "To establish a self-archiving institutional repository of research papers for the University of Melbourne."

The browser's taskbar at the bottom shows several open applications: ANU Programs, Inbox - Mic..., Geneva.ppt, The Unive..., Document..., Taiwan 2 R..., and Uni melb e... The system tray on the right indicates the time as 8:19 AM.

University of Melbourne 2

- Currently, February 2004, 237 items: thesis, reports, working papers, conference papers and journal articles from 11 Faculties
- Links to collection policy, technical advice, and copyright policies of publishers based on the ROMEQ site
- Significant hits from overseas – like elsewhere pick up by Google, OAlster, etc.

ePrints@UQ is a deposit collection of papers that showcases the research output of UQ academic staff and postgraduate students across a range of subjects and disciplines, both before and after peer-reviewed publication.

The ePrints@UQ server will provide free, searchable access to this research and manage its long-term archiving.

The ePrints@UQ archive is part of a [Group of Eight](#) initiative in Australia, which aims to ensure that Australian universities' research output will be visible, accessible and usable through

Monash University ePress

Monash University ePress will publish, online, a critical mass of quality scholarly publications. The main content type will be eJournals, but the ePress will also publish selected monographs and conference papers.

Monash University ePress operates with the following goals:

- advancement of scholarly communication by reducing the costs of and barriers to access,
- providing a more direct link between readers and writers of scholarly material,
- promotion of Monash University's research, teaching, and intellectual capital

Both unpublished and previously published material will be considered for publication, including material already published or being published in electronic form.

- Goals: advancement of scholarly communication by reducing costs of and barriers to access
- Providing a more direct link between readers and writers of scholarly material
- Promotion of Monash University's research, teaching and intellectual capital
- Concentration on serials initially

Sydney University Press Electronic Initiatives

The screenshot shows a Microsoft Internet Explorer browser window with the address bar displaying <http://www.sup.usyd.edu.au/>. The browser interface includes a menu bar (File, Edit, View, Favorites, Tools, Help), a toolbar with navigation buttons (Back, Forward, Stop, Home, Search, Favorites, History), and a status bar at the bottom showing the system tray with the time 8:38 AM and language set to EN.

The website content features a blue header with "The University of Sydney" and a red banner with the Sydney University Press crest and name. The main content area includes a large image of an open historical manuscript with handwritten text, a photograph of a university building, and a vertical list of navigation links: "Classic Australian Works", "SUP Backlist", "SETIS eTexts", "Featured Books", "Browse Books", and "Search". A footer section contains "About SUP", "Sitemap", and the "Sydney University" logo.

SETIS eTexts

SETIS eTexts

[SETIS](#) (the Scholarly Electronic Text and Image Service at the University of Sydney Library) has created well over 350 electronic texts since its establishment in 1996. Most of these texts are available at the [SETIS Australian Studies](#) site for free download. The site also includes keyword searching across all texts to enhance intensive research within the texts, or simply for the enjoyment of the general reader.

As a contribution to the re-establishment of Sydney University Press as an e-publishing platform, these texts will be converted to print-on-demand format. Requests for print availability can be addressed to sales@sup.usyd.edu.au.

The first e-Texts soon to be made available for print on demand publication include:

About UTSePress

UTS: ePress
[home](#)
[search](#)
[about](#)
[contact us](#)

Journals
[by name](#)
[by subject](#)

Members of the UTSePress Steering Group:

University Librarian, Alex Byrne (Chair) Chair of the Academic Board, Professor Tony Baker Dean nominated by the Vice-Chancellor, Professor Joyce Kirk, Dean of the Faculty of the Humanities and Social Sciences Technical Adviser, Fides Datu Lawton, Director (Library Resources Unit) Representative of the Research Office, Stephan Wellink

The tasks of the Steering Group, as indicated by the Vice-Chancellor, will be to:

1. Establish the scope of UTSePress, making recommendations on organisational structure including the terms of reference and composition of the UTSePress Board.
2. Take steps to protect the name UTSePress, relevant Internet domains and any associated intellectual property.
3. Develop the initial guidelines for the operation of UTSePress including the criteria for approval of imprints and publications.
4. Identify the initial imprints and publications of UTSePress.
5. Guide the first phase of the development of the infrastrucure for UTSePress including the establishment of the Technical Committee.
6. Make any other necessary recommendations for the future operation and development of UTSePress.

Information Infrastructure: Backing Australia's Ability

- Digital Objects Repository Management Forum, May 2003, University of Sydney
- <http://www.library.usyd.edu.au/dest/forum.html>
- Very useful overviews particularly of large scale datasets, grid computing and work of National Library

National Library of Australia

- Metadata harvesting and delivery of national resource discovery services:
 - <http://www.nla.gov.au/nla/staffpaper/2003/dc Campbell1.html>
- Digital services architecture
 - Informed by OAIS Reference Model
 - <http://www.nla.gov.au/nla/staffpaper/2003/cathro1.html>
- Resource Discovery Service searching
 - <http://www.nla.gov.au/rds/>

Metadata harvesting and resource discovery

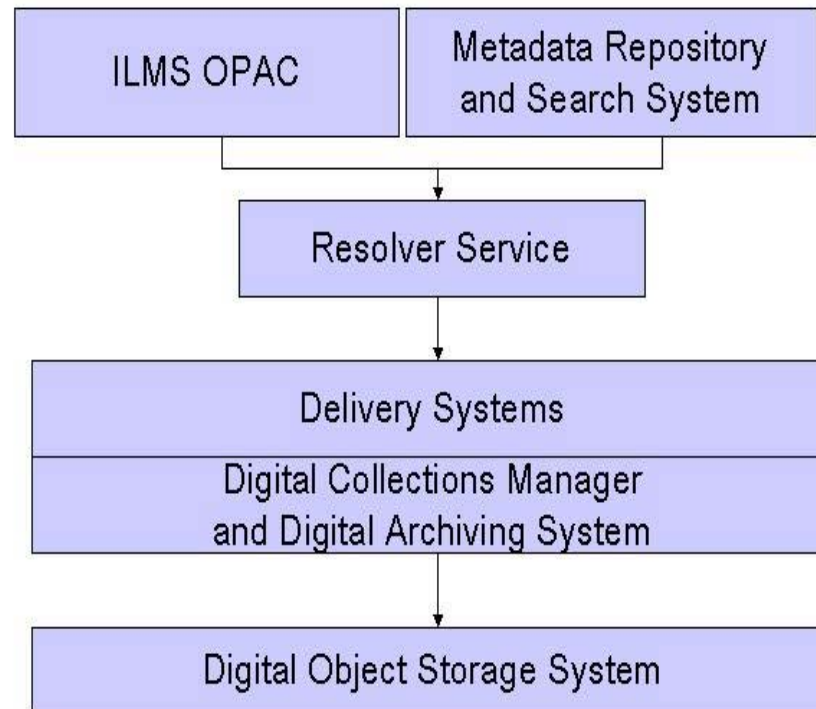

- ❖ Services include:
 - Kinetica
 - PictureAustralia (testing OAI harvesting)
 - Register of Australian Archives and Manuscripts
 - MusicAustralia
 - Resource Discovery Proof of Concept
- ❖ Use of TeraText Database System
- ❖ “Harvester” project
- ❖ Experimentation with OAI

National Library of Australia 3

NLA Digital Services Architecture

Australian Government Initiatives

- Lobbying from digital repository people/ science and University Librarians led to national appreciation of linked up approach
- Role of DEST Higher Education Information Infrastructure Committee (now ARIIC)
- DEST working party scoped E Print repositories – John Shipp and Colin Steele

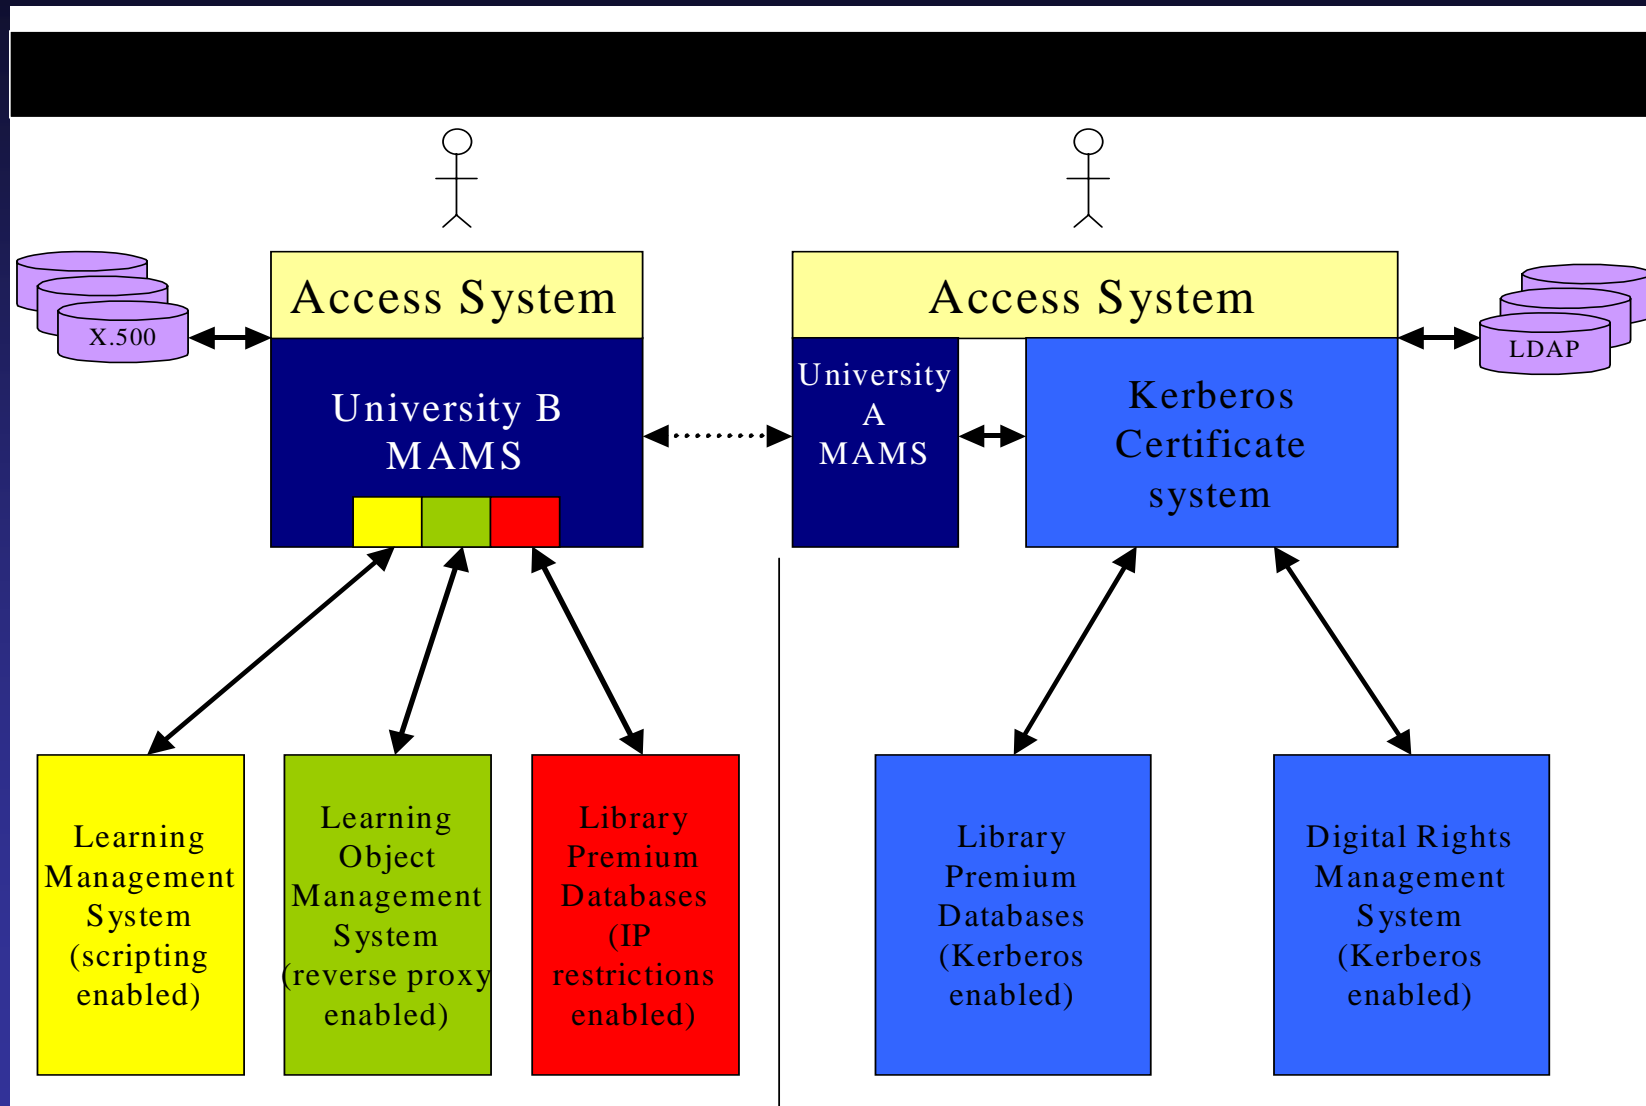

Australian Government Grants: October 2003

- \$12 million Australian to make “Australia’s research information ... more easily accessible and better managed” Acting Minister for Education, Science and Training
- Four projects covering 15 Australian universities, Australian and international libraries, industry representatives and international organisations

Macquarie University E-Learning Centre of Excellence (MELCOE)

- Work of McLean and Dalziel: COLIS – now IT Systems and Repositories Project (IIS&R)
- Umbrella system to manage range of specific modules which can achieve single sign on
- Integration with existing legacy systems
- Evolution of MAMS – Meta Access Management System (next ppt)

Macquarie MAMS

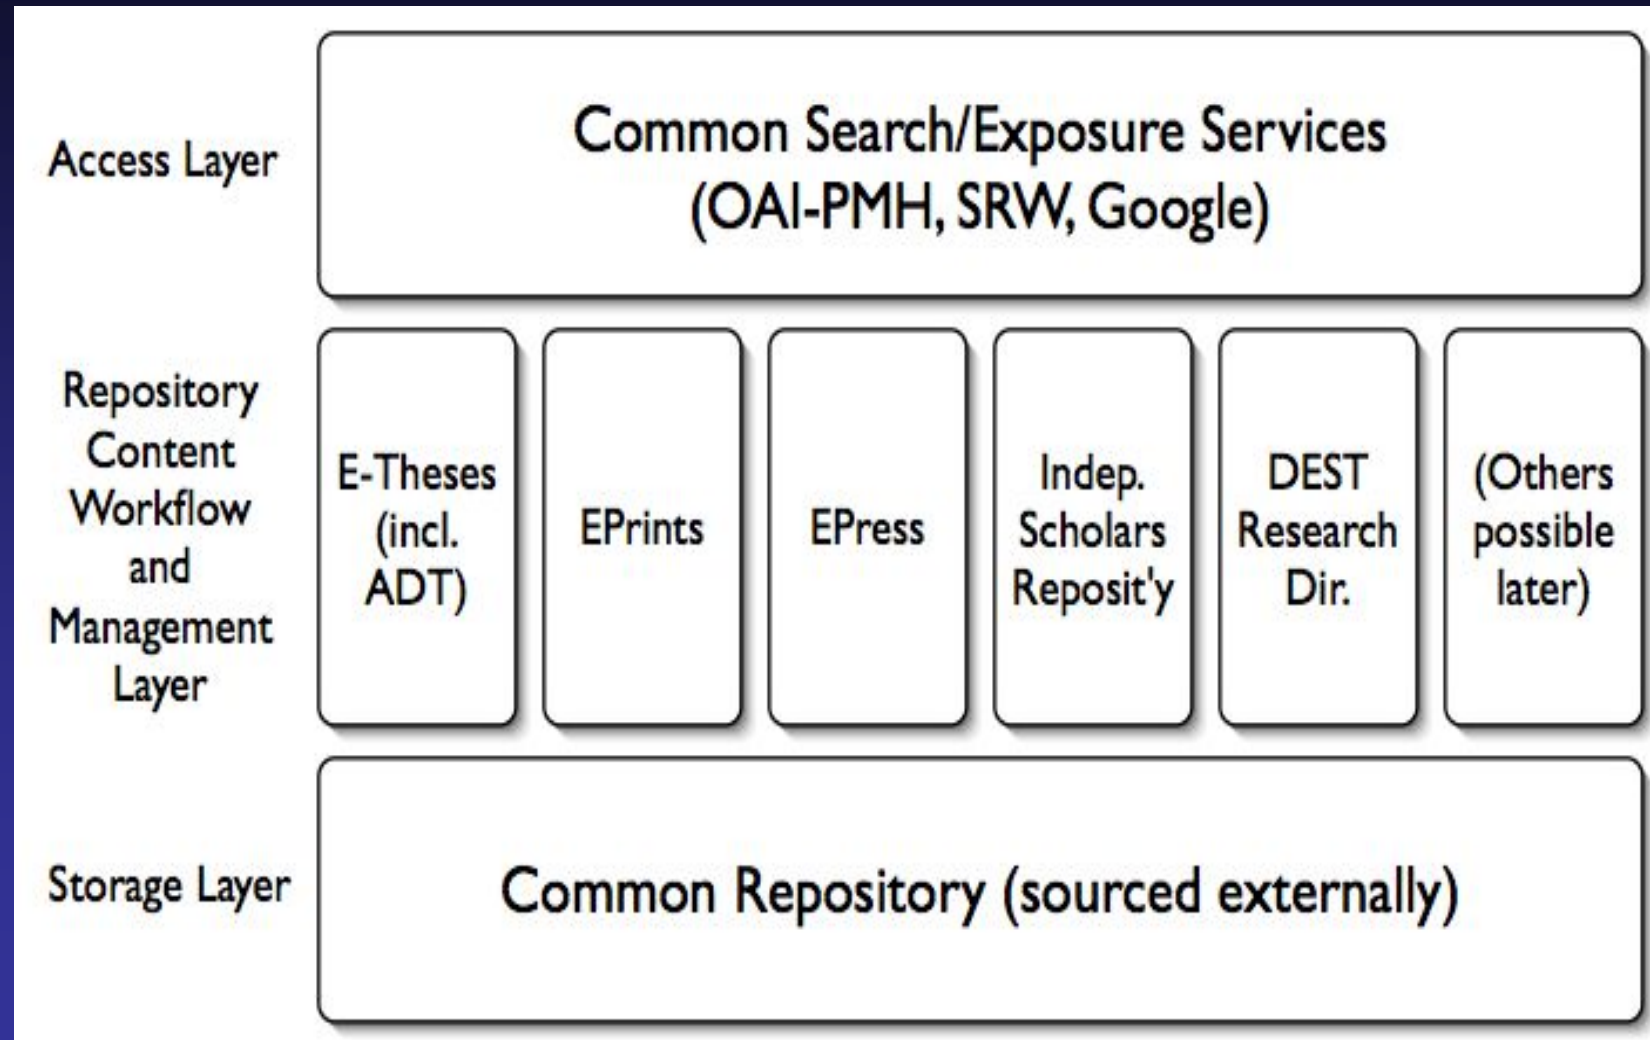

Australian National University: APSR

- Australian Partnership for Sustainable Repositories (APSR) through ANU's Centre for Sustainable Digital Collections
- Develop national research infrastructure through broad repository based architecture
- Access continuity, sustainability of digital collections, national coordination and international linkages

- Core: Digital Continuity and Sustainability Program (NLA focus)
- Practices and Test-beds Program: ANU - Integrated repository framework; Usyd - E-humanities and continuity; UQ - eScholarship Australia; APAC - E-research data management
- International Linkages Program
- National Services Program

Monash University: ARROW

Conclusion

- Need for continued action at international cooperative level in issues relating to scholarly communication, eg
- University of California initiatives
- February 19 conference at Southampton University: “National Policies on Open Access Provision for University Research Output”
- June 1 National Scholarly Communication Forum in Canberra, Australia

Conclusion: Bright Futures rather than Dark Visions?
