Results and plans with heavy ion collisions at LHCb experiment (15' + 5')

Friday, 5 August 2016 17:40 (20 minutes)

In 2015, the LHCb experiment has started to acquire data during the ion-ion runs of the LHC.

In this talk we present the results of the first data analyses and discuss the prospects for the LHCb ion-ion collision programme.

Presenter: BOSSU, Francesco (Orsay-LAL)

Session Classification: Heavy Ions

Track Classification: Heavy Ions
