

**38th INTERNATIONAL CONFERENCE
ON HIGH ENERGY PHYSICS**

AUGUST 3 - 10, 2016
CHICAGO

Contribution ID: 1741

Type: **Oral Presentation**

Arts in HEP at Fermilab and CERN (12' + 3')

Saturday, 6 August 2016 15:15 (15 minutes)

Fermilab Artist-in-Resident Lindsay Olson and Art@CERN director Monica Bello will discuss how the arts can enrich outreach for High Energy Physics. Using visual arts, dance, music and sound installations, the arts create an exciting and beautiful platform to educate people in ways words alone cannot. Hear about how successful arts/science collaborations make a difference in informing the public about particle physics research.

Primary authors: HAFFNER, Julie (CERN); OLSON, Lindsay (Fermilab)

Presenters: HAFFNER, Julie (CERN); OLSON, Lindsay (Fermilab)

Session Classification: Education and Outreach

Track Classification: Education and Outreach
