CRC report (9/8): <http://indico.cern.ch/event/435769/contribution/2/attachments/1151240/1652753/CRCWeeklyReport-08092015.pdf>

1) 9/5: SLACXRD - source/destination file transfer errors ("[SRM\_INVALID\_PATH] No such file or directory"). Wei reported the issue had been resolved - no recent errors as of 9/9, so [https://ggus.eu/index.php?mode=ticket\\_info&ticket\\_id=116059](https://ggus.eu/index.php?mode=ticket_info&ticket_id=116059) was closed. eLog 54818.

2) 9/8: ADC Weekly meeting:

Follow-ups from earlier reports:

(i) 8/11: BNL-OSG2 - deletion errors ("[SRM\_AUTHORIZATION\_FAILURE] Permission denied"). [https://ggus.eu/index.php?mode=ticket\\_info&ticket\\_id=115640](https://ggus.eu/index.php?mode=ticket_info&ticket_id=115640) in-progress, eLog 54504. Update 8/18: actually a couple of issues here. In some cases the errors were due to the files not being in the BNL storage. Also, DDM ops switched Rucio to use SRM for deletion from BNL-OSG2\_DATADISK and BNL-OSG2\_USERDISK after noticing that Rucio seemed to be misinterpreting errors from the WebDAV door at BNL. Issue followed here: <https://its.cern.ch/jira/browse/RUCIO-1793>. ggus 115640 was closed - eLog 54572.

(ii) 8/24: SLACXRD - ddm deletions failing with the message "The requested service is not available at the moment." Wei reported the files that the system was attempting to delete were among the lost files previously declared to ddm ops (<https://its.cern.ch/jira/browse/ATLDDMOPS-5102>). Will leave the ggus ticket open ([https://ggus.eu/?mode=ticket\\_info&ticket\\_id=115846](https://ggus.eu/?mode=ticket_info&ticket_id=115846)) while the file recovery/catalog cleaning is still in progress. eLog 54708.

(iii) 8/30: AGLT2\_DATADISK - deletion errors ("[SRM\_AUTHORIZATION\_FAILURE] Permission denied"). [https://ggus.eu/index.php?mode=ticket\\_info&ticket\\_id=115946](https://ggus.eu/index.php?mode=ticket_info&ticket_id=115946) in-progress, eLog 54698.
