

# ENSAR-2 NUSPRASEN Workshop

## Tuesday, 6 December 2016

### Session 2: Session 2 - 503/1-001 - Council Chamber (16:05 - 18:15)

time	[id] title	presenter
16:05	[8] Shell model far from stability: Islands of Inversion mergers	NOWACKI, Frederic
16:30	[9] Nuclear structure studies by the measurements of nuclear spins, moments and charge radii via collinear laser spectroscopy: results and perspectives	NEYENS, Gerda
16:55	[10] Mean field theory on octupole deformed nuclei	PERU, Sophie
17:20	[11] Shape effects from total absorption measurements	ALGORA, Alejandro
17:40	[12] Recent achievements and future developments in Coulomb excitation studies	ZIELINSKA, Magdalena
18:00	[13] Discussion and Conclusion
