	Management Reserve	123,875

A photograph of the New Orleans skyline viewed from the water. The skyline features several prominent skyscrapers, including the New Orleans Morial Convention Center (a tall, cylindrical building with vertical stripes) and the Hilton Hotel. The foreground shows a body of water with a pier and a few boats. The sky is blue with some clouds, and green tree branches are visible in the upper corners of the frame.

**New Orleans is a great conference venue
with excellent facilities**

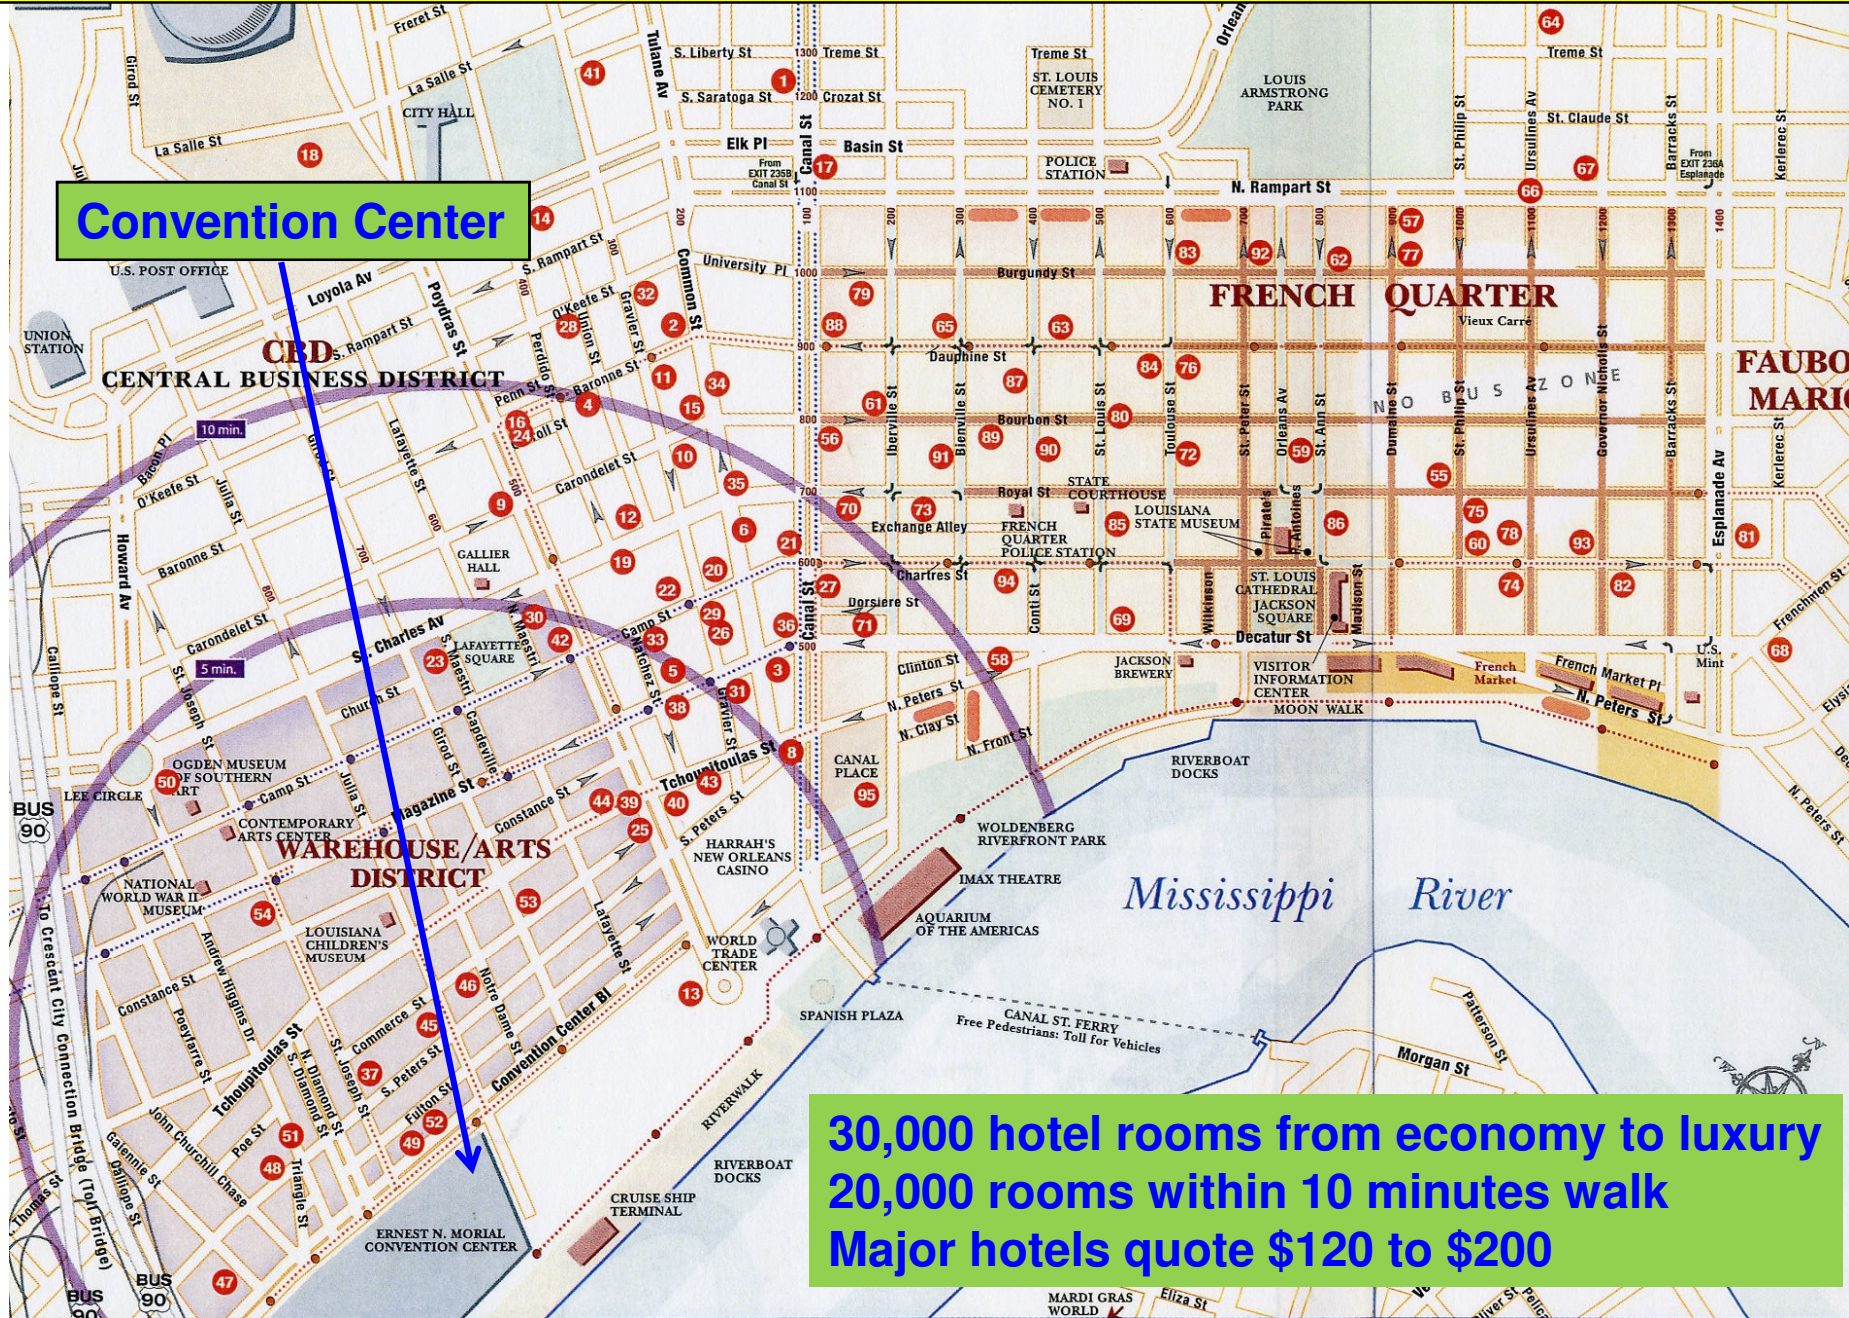

We are anticipating a successful conference

1,000,000 sq ft of sub-dividable exhibition space

We need 75,000 sq ft for combined posters and Industry Exhibition

Where are New Orleans and Baton Rouge?

New Orleans on the Mississippi river

Baton Rouge is 1 hour from New Orleans

Facts and figures about Louisiana State University

An aerial photograph of the Louisiana State University campus in Baton Rouge, Louisiana. The image shows a large green lawn in the foreground with a circular paved area and a flagpole. Numerous brick buildings with red roofs are scattered across the campus, interspersed with trees. A large white dome stadium is visible in the upper right. The background shows more campus buildings and green fields under a clear sky.

Founded in 1853 in Baton Rouge
9 Senior Colleges, 4 Schools, Several Centers,
Institutes
30,000 students, (1600 International)
5000 Graduate students
1200 Full time Faculty and 3,000 Staff
