Tell1: status report

Stéphane T'Jampens Nicolas Dumont-Dayot

Tell1: status

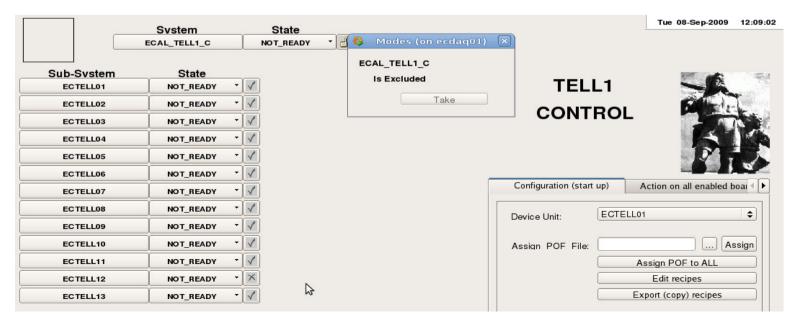

All CALO tell1 with 4Gbe ports enabled (In August, some problem with the F10 switch decreased the number of available ports to 3)

Firmware 3.3 should be released soon by Guido.

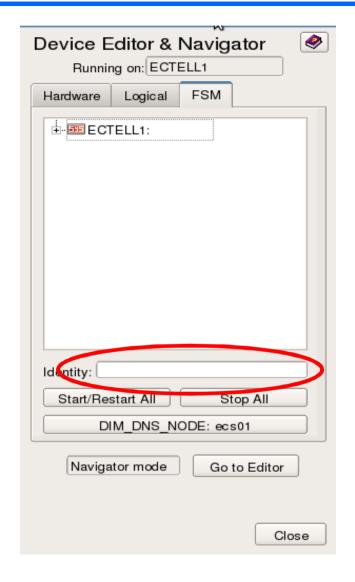

Ectell12 problem:

Monitor number of LLink parity errors : [0] [0] [FF]

- Board exchanged this morning. (251 → 420). Raise the problem of tell1 spare policy (the current situation is not acceptable during data taking)
- However, I couldn't "take" the ECTELL1 PVSS project ! [HC and PS OK]

Tell1: status

PB OK
