

Interplay of Collider and Flavour Physics

The background features a complex, abstract design. It includes several overlapping, semi-transparent colored regions in shades of green, orange, blue, and yellow. A prominent feature is a dense, starburst-like network of thin, multi-colored lines (blue, yellow, purple, red) radiating from a central point on the right side. There are also some faint, larger-scale patterns and shapes, including a red-outlined area with horizontal lines on the left and a grey-outlined area with a diagonal line.

3rd general meeting

14-16 Dec 2009

CERN

Organizers: J. Ellis, T. Hurth, S. Kraml, M. Mangano
