UK Computing for Particle Physics

Overview

- JSPG meeting (7/8 Dec 2009)
 - Included revision of final two policy documents in the complete EGEE-III revision of the policy set
- Revised draft policies
 - Grid Acceptable Use Policy
 - Site Registration Security Policy
 - Both sent out by e-mail yesterday

Grid AUP

- - Version 4.1
- Old policy document (V3.1 28 Oct 2005)
 - one of the early successes of JSPG
 - a simple common policy for use on several different interoperating Grids
 - AUP has to be accepted by all users during their (re)registration with their VO
 - Important for interoperation between Grids

Grid AUP (2)

- Many Grids and other computing infrastructures, e.g. DEISA, have since used this AUP
- but needed to make small modifications
- main aim of this revision
 - take these modifications into account
 - produce a new version to meet the needs of Grids using the policy

Grid AUP (3)

- For example, no explicit mention of the VO
 - AUP now works for infrastructures such as DEISA
- Old text
 - *By registering with the Virtual Organization as a GRID user ...*
 - *You shall only use the GRID to perform work, or transmit or store data consistent with the stated goals and policies of the VO of which you are a member*
- New text
 - *By registering as a Grid user ...*
 - *You shall only use the Grid to perform work, or transmit or store data consistent with the stated goals, policies and conditions of use as defined by the body or bodies granting you access*

Site Registration Security Policy

- - Version 3.1
- Old policy document (V2.0 16 Mar 2006)
 - contains many detailed registration procedures
 - These are too Grid-specific
- JSPG decided to remove these
 - change the focus of the document to be purely related to security policy issues
 - similar to the recently approved "Virtual Organisation Registration Security Policy"
- new document is now much shorter and simpler

Requests to GDB

- Comments welcome on these 2 policy documents before end of January
- Then JSPG will address comments and seek WLCG MB (and EGEE TMB) approval

JSPG Meetings, Web etc

- Meetings - Agenda, presentations, minutes etc

- JSPG Web sites

and

- Membership of the JSPG mail list is closed, BUT
 - Volunteers to work with us are always welcome!
- Policy documents at and
