

O-E-13 transition plans

Vera Hansper, CSC/NDGF, Finland

POLE2 cf. O-E-13

O-E-13:

definition of best practices, operations procedures, operations requirements.

Current status:

- Pole2: Operational procedure documentation, Best current practices and training guides for operations
- Pole2 Task Leader and coordinator: Vera Hansper (CSC/NDGF, Finland)
- Supervising coordinator : Helene Cordier (IN2P3, France)
- Current task (POLE2) maps well to that of O-E-13

Transition plan for transfer of duties from France to Finland.

- **Establish contact with previous coordinators of grid operations and other actors in this area.**
 - In practice this is already taking place. Unknown players may still need to be identified. In particular, this will involve persons who will actively contribute to the task.
- **Further establish contact with co-ordinators of corresponding tools and tasks. (O-E-1, O-E-4,5,6,7)**
- **Encourage participation of NGIs, particularly current operations team members.**
 - Their experience is invaluable as input for the further development of operational procedures.
- **Envisage that O-N-5, O-N-6 and O-N-7 operations staff will have suitable skills.**
 - Put forward a call to these National task bodies to contribute to the project.

Transition status

In progress

- **Good dialogue between current POLE tasks supervisor and future coordinator.**
- **Dialogue already established between O-E-4, O-E-5 and O-E-13.**
 - Further contact between O-E-13 and O-E-6,7 still required.

- **Concerns**
 - Lack of clear commitment by NGIs to contribute to the work required.
 - Should this be enforced?
