Postscript

- What actions have arisen today that should result in a presentation to a future meeting?

- What issues have arisen that require someone to return to the next meeting with a status report?

- What topics would the meeting like discussed at future meetings?

Areas and outcomes

- **Introduction (SAM tests)**
  - Future meeting topics. Issues with availability tests
- Quattor
  - Need for mandate update. Request for TCG to follow up on documentation of options
- Filesystems
  - HEPiX based. Need for more experiment input
- SL4 status
  - WN build now on PPS. Iterative process means some weeks before production ready release
- Castor status
  - Much resting on LSF plug-in. ATLAS problems being addressed.

Areas and outcomes

- **Security policies & updates**
  - Grid security policy to be approved pending IPR issue. Other policies under development

- **Job priorities**
  - More sites publishing. In short-term looks like there is a need to expand info system: VOViews+VO specific views

- **LCG planning**
  - New spreadsheet with installed capacity in place of available. Questions about mid-term updates

- **Storage accounting**
  - Update on SAM issue and UK storage access testing. Accounting update.

- **Operational issues for production storage**

- **VOMS coordination**

Thanks From John

- To Milos and local people for organising meetings
- To Jeremy for chairing today's meeting
- To Milos for chairing yesterday.
