

Security Policy Update

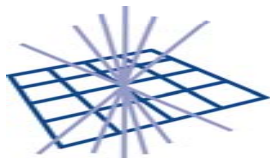

LCG GDB

CERN, 2 May 2007

David Kelsey

CCLRC/RAL

d.p.kelsey@rl.ac.uk

GridPP
UK Computing for Particle Physics

Overview

- JSPG meeting (phone conf) on 17 April 07
- Agreed *final* version of
 - Grid Site Operations Policy
- Agreed good draft version of
 - Grid Security Policy
 - top-level document
- Grid Policy on Handling Logged Personal Information
 - User-level accounting privacy issues
 - Not yet discussed by JSPG

Grid Site Operations Policy

- <https://edms.cern.ch/document/726129>
 - Draft V1.4, 19 Apr 2007
- New bullet on IPR
 - *Your participation in the Grid as a Site shall not create any intellectual property rights in software, information and data provided to your Site or in data generated by your Site in the processing of jobs.*
- **Final** version
- Seeking EGEE, OSG, NDGF etc approval

Site Policy (2)

- We also need
 - Covering paper per *Grid* explaining all the terms of the policy and pointers to policy docs etc
 - This also explains how JSPG maintains policy, how stakeholders are consulted and how the policy is approved and adopted
 - Draft for EGEE exists (see same EDMS link)
- Only makes sense to ask Sites to sign this document when new top-level policy is approved and adopted
- *Is GDB happy that we send to WLCG MB?*

Grid Security Policy

- New top-level document
 - To replace very out of date LCG-specific version
- See <https://edms.cern.ch/document/428008/4>
- V5.6 (24 Apr 2007)
 - Removed over use of the word “Grid”
 - Many minor changes
- Aim for approval in June 07

Consistency, duplication of words, plans for future...

- JSPG sees
 - Duplication of descriptions between top-level document and sub-documents
 - Inconsistencies between top-level wording and sub-documents and between sub-documents
 - Top-level document is still too long
- BUT...
- Replacing the very out of date version is urgent
 - Also needed for sites and VO's to "sign"
- Decided
 - V5.6 should be good enough for approval as is
 - Will then work over next year on better consistency
- EGEE-III aim will be to take policy forward into the National Grid world (many NGI's)

“Logged Information” Policy

- One document covering all types of operational data: audit logs, accounting, monitoring, debug, etc
- Types of data are classified
- General policy document
 - Plus appendix for each type of personal data
 - User-level job accounting – first appendix
- Grid Policy on the Handling of Personal Logged Information
 - <https://edms.cern.ch/document/840299>
 - V0.3 – early draft – not yet discussed by JSPG
 - Words far from perfect

Requests to GDB

- Please approve the *Grid Site Operations Policy (V1.4)*
 - Then we send to MB for formal approval
- Please comment on new policy documents
 - Grid Security Policy (V5.6)
 - Good draft
 - Logged Information Policy (V0.3)
 - Rough draft but comments on approach are welcome
- By June GDB
 - Grid Security Policy ready for approval
 - Good draft of Logged Information Policy
 - Formal approval in July

JSPG Meetings, Web etc

- Meetings - Agenda, presentations, minutes etc
<http://agenda.cern.ch/displayLevel.php?fid=68>
- JSPG Web site
<http://proj-lcg-security.web.cern.ch/>
- Membership of the JSPG mail list is closed, BUT
 - Requests to join stating reasons to D Kelsey
 - Volunteers to work with us are always welcome!
- Policy documents at
<http://cern.ch/proj-lcg-security/documents.html>
