

## Student Session

**Student:** Theresa Obermann

### **Date and Time:**

-Tuesday 17<sup>th</sup> August at 9.45

**Subject :** "Sensor R&D for ATLAS-IBL and sLHC"

### **Biography-**

#### **Brief CV:**

-School: Rheinische Friedrich Wilhelms Universität Bonn (University of Bonn)

-Field of study: particle physics and detector physics

-Education: just finished my Bachelor of Science in Physics, I am going to make a master as well

-Project at Cern: Research and Development of sensor for ATLAS IBL and sLHC, characterization of unirradiated and irradiated sensors (lab work). Helping with the automatization (programming work).
