CDS Integration module for Drupal

- Embed images and videos from CDS on a Drupal site from CDS url
- For images: sync with CDS attributes
 - Caption
 - Attribution/photographer
 - Copyright

Dependencies and versions needed

- [Features](#)
- [File Entity](#) (7.x-2.0-unstable6)
- [Media](#) (7.x-2.0-unstable6)
- [Oembed](#) (7.x-0.1-beta3)
- [Link](#)

Known issues

- As the dependencies version say: could be unstable!
- Notice: Undefined property: stdClass::\$image_dimensions in file_entity_file_update() (line 63 of /sites/all/modules/file_entity/file_entity.file.inc).
Due to an [issue with the Media module.](#)
- Performances!

When to use it?

- Testing required.
- Use with caution! Dependencies for this module are still unstable!
