

Meeting with the Steering Committee on the 24th of November 2021

15:00 SAST – 16:00

AGENDA: Discussion on the Scope of the C.E

1. Outreach & Physics Communications:
 - Communities at large
 - Government: projects they support and how they influence our work
 - How do we keep they young scientists in Africa? Incentive? Stop the Brain drain
 - Technology transfer is done according to what Africa needs
2. C.E is a bridge in our communities and the policy makers and funding agencies.
3. Collaborations between African countries: inter-African connection about utilising resources to develop capacity and development.
4. Collaboration with African Diaspora to motivate them to give back to Africa: get their views and get the views of African scientists on what can be done to retain African scientists in Africa.
5. C.E Workshop to talk about our ideas....
6. Conduct a survey.... About what? Stop the brain drain...
7. Workshop: How can we engage the community for better science in Africa?
8. Making sure that what we do support the community well being and the community benefits the Physics education
9. How can we get Physicists get involved in the community development? Water purification, sanitation, energy use, renewable energy,...etc.
10. Call a meeting and talk with other groups about our ideas and see if we can collaborate
11. Deadline for LOI will be moved toend of February 2022 as the meeting/workshop is on 7th of March 2022
