
ServiceX CI/CD Updates

Suchandra Thapa
Enrico Fermi Institute
University of Chicago

ServiceX Working Meeting
6/25/21

Flux updates

- Deployed on River
- Waiting for a finalized chart and servicex web endpoint to create instances
 - Got a few suggestions for changes yesterday – making them today

MinIO Cleanup

- Initial planning stages for component to cleanup MinIO storage
 - Needed for to use persistent volumes
 - Two possible basic cleanup strategies:
 - Time based (clean up everything older than x days)
 - Space based (clean up when less than y% free)
 - Planning on using space based cleanup

Steps going forward

- Finalize code and chart changes
- Deploy instances on river
- Finish up MinIO service, test, and deploy
