

# Sustainable Energy: Challenges and Opportunities

## Tuesday, 24 August 2010

### Hydrogen and Solar (08:30 - 13:00)

time	[id] title	presenter
08:30	[11] Spectroscopy for the study of Hydrogen storage in polyconjugated systems. What we have learned for future developments	ZERBI, Giuseppe
09:30	[12] Covalent Functionalization of Carbon NanoTubes (CNTs) and their Application to Catalytic Water Splitting (Energy Storage)	SCOLES, Giacinto
10:30	Cofee Break	
11:00	[13] PV vs. CSP: alternative technologies?	ZORZOLI, Giovanni Battista
12:00	[14] Electricity from the Sun: A Bright Future Shines on PV	DESNICA, Uroš
