

Session Program

26 September 2021 to 1 October 2021

Low-x 2021

jets, final state, low x session I

Tuesday 28 September

16:40

jets, final state, low x session I

Session | Location:

16:40-17:05 The LHC Spin project

Speakers

Marco Santimaria, Marco Santimaria

17:05-17:30 Jet cross section measurements in CMS (remote)

Speaker

Deniz Sunar Cerci

17:30-17:55

Precision measurements of jet production at the ATLAS experiment (remote)

Speaker

Francesco Giuli

17:55-18:20

New results on probing limitations of collinear QCD in lepton-jet correlations (remote)

Speaker

Ben Nachman

18:20-19:00 Discussion session: low x, BFKL, jets

Speakers

Cyrille Marquet, Dimitri Colferai, Krzysztof Kutak

19:00
