

Session Program

26 September 2021 to 1 October 2021

Low-x 2021

Heavy ion - Vector boson session

Thursday 30 September

11:00

Heavy ion - Vector boson session

Session | Location:

11:00–11:25

Charmonia photo-production in ultra-peripheral and peripheral PbPb collisions with LHCb (remote)

Speakers

Weisong Duan, Weisong Duan

11:25–11:50

Measurement of W and Z boson production in association with jets at ATLAS

Speaker

Laura Fabbri

11:50–12:15

V+jets results from CMS

Speakers

Vieri Candelise, Vieri Candelise

12:15–12:40

Vector-boson scattering, diboson and triboson production at ATLAS

Speaker

Despoina Sampsonidou

12:40–13:10

Discussion: heavy ions, vector bosons

Speakers

Georgios Krintiras, Irais Bautista Guzman

13:10
