

# Low-x 2021

## Friday, 1 October 2021

### Vector meson session I (09:00 - 10:55)

time	[id] title	presenter
09:00	[79] Measurements of prompt photon production with the ATLAS detector	CAMARERO MUNOZ, Daniel
09:25	[81] Recent results on vector meson production, particle multiplicity spectra and particle correlations at HERA	RUSPA, Marta
09:50	[82] Recent ALICE results on vector meson photoproduction	RAGONI, Simone
10:15	[83] Gluon-gluon fusion for production of light isoscalar mesons (remote)	SZCZUREK, Antoni
10:35	[47] Single and double phi production at the LHC: the role of odderon exchange (remote)	LEBIEDOWICZ, Piotr
