

Code of Conduct for the Sustainable HEP workshop.

Be respectful of other participants, speakers and panelists and their views and treat everybody in a polite fashion.

Please use your full name in zoom in the form “first name last name”, do not use abbreviations, first names or technical names “iphone27” or similar.

Please only use the zoom chat function to everybody for questions to the talks. All discussions should be conducted on the mattermost channels.

Please do not use the zoom chat function to everybody to say hi or introduce yourself; please use the “off-topic” mattermost channel for that.

Please note that the youtube channel for the flash talks is a private channel and do not share the link with anyone who is not a workshop participant.

Please note that unless speakers state so explicitly, they attend the workshop as individuals, not as representatives of their institutions.
