

# Reconnect

*Monday, 28 June 2021 16:20 (10 minutes)*

The RECONNECT conference (Remote Conference on New Concepts in Particle Theory) was an international conference, organised by the IPPP in Durham during the first months of the corona pandemic. With this first edition we aimed to provide a forum in which the whole theoretical community can share the latest ideas that drive our field. I will briefly review the challenges and opportunities of the RECONNECT conference.
