

Session Program

7-8 Oct 2010

MACS Week 2010 - 2

MedAustron

CERN, 13/2-005

Friday 8 October

09:00

MedAustron

Session | **Location:** CERN, 13/2-005

09:00–09:20

Ion Beam Energy Qualification in the Synchrotron

Speaker

Fabian Moser

09:20–09:40

Status of WP Optics/Operation: with respect to control system issues

Speaker

Ulrich Dorda

09:40–09:55

MA Vacuum Control System

Speaker

Joachim Wallner

09:55–10:15

Advanced Control for MedAustron Power Converters

Speaker

Philippe Fraboulet

10:15–10:35

Ion Sources - Hardware and Operation

Speaker

Liviu Penescu

10:35–10:55

Break

10:55–11:10

BD Controls - What I figured up to now

Speaker

Anton Kerschbaum

11:10–11:20

Synchrotron LLRF Status

Speaker

Gerd Kotzian

11:20–11:40

Interlock System Equipments for Conventional Magnets

Speaker

Anthony Beaumont

11:40–11:55

Special Magnets Controls: Status and Plans

Speaker

Tobias Stadlbauer

12:00
