LATTICE 21

The 38th International Symposium on Lattice Field Theory

Co-chairs: William Detmold & Phiala Shanahan

LATTICE 21

The 38th International Symposium on Lattice Field Theory

The conference is running on three platforms

- **Zoom** for plenary and parallel sessions
- **Slack** for discussions and questions
- **Gather** for posters and post session discussions and social interactions

Use them all!

Communicate with us through the Slack “_helpdesk” channel, or lattice2021-registration@mit.edu

Massachusetts Institute of Technology

Center for Frontiers in Nuclear Science

intel

NVIDIA

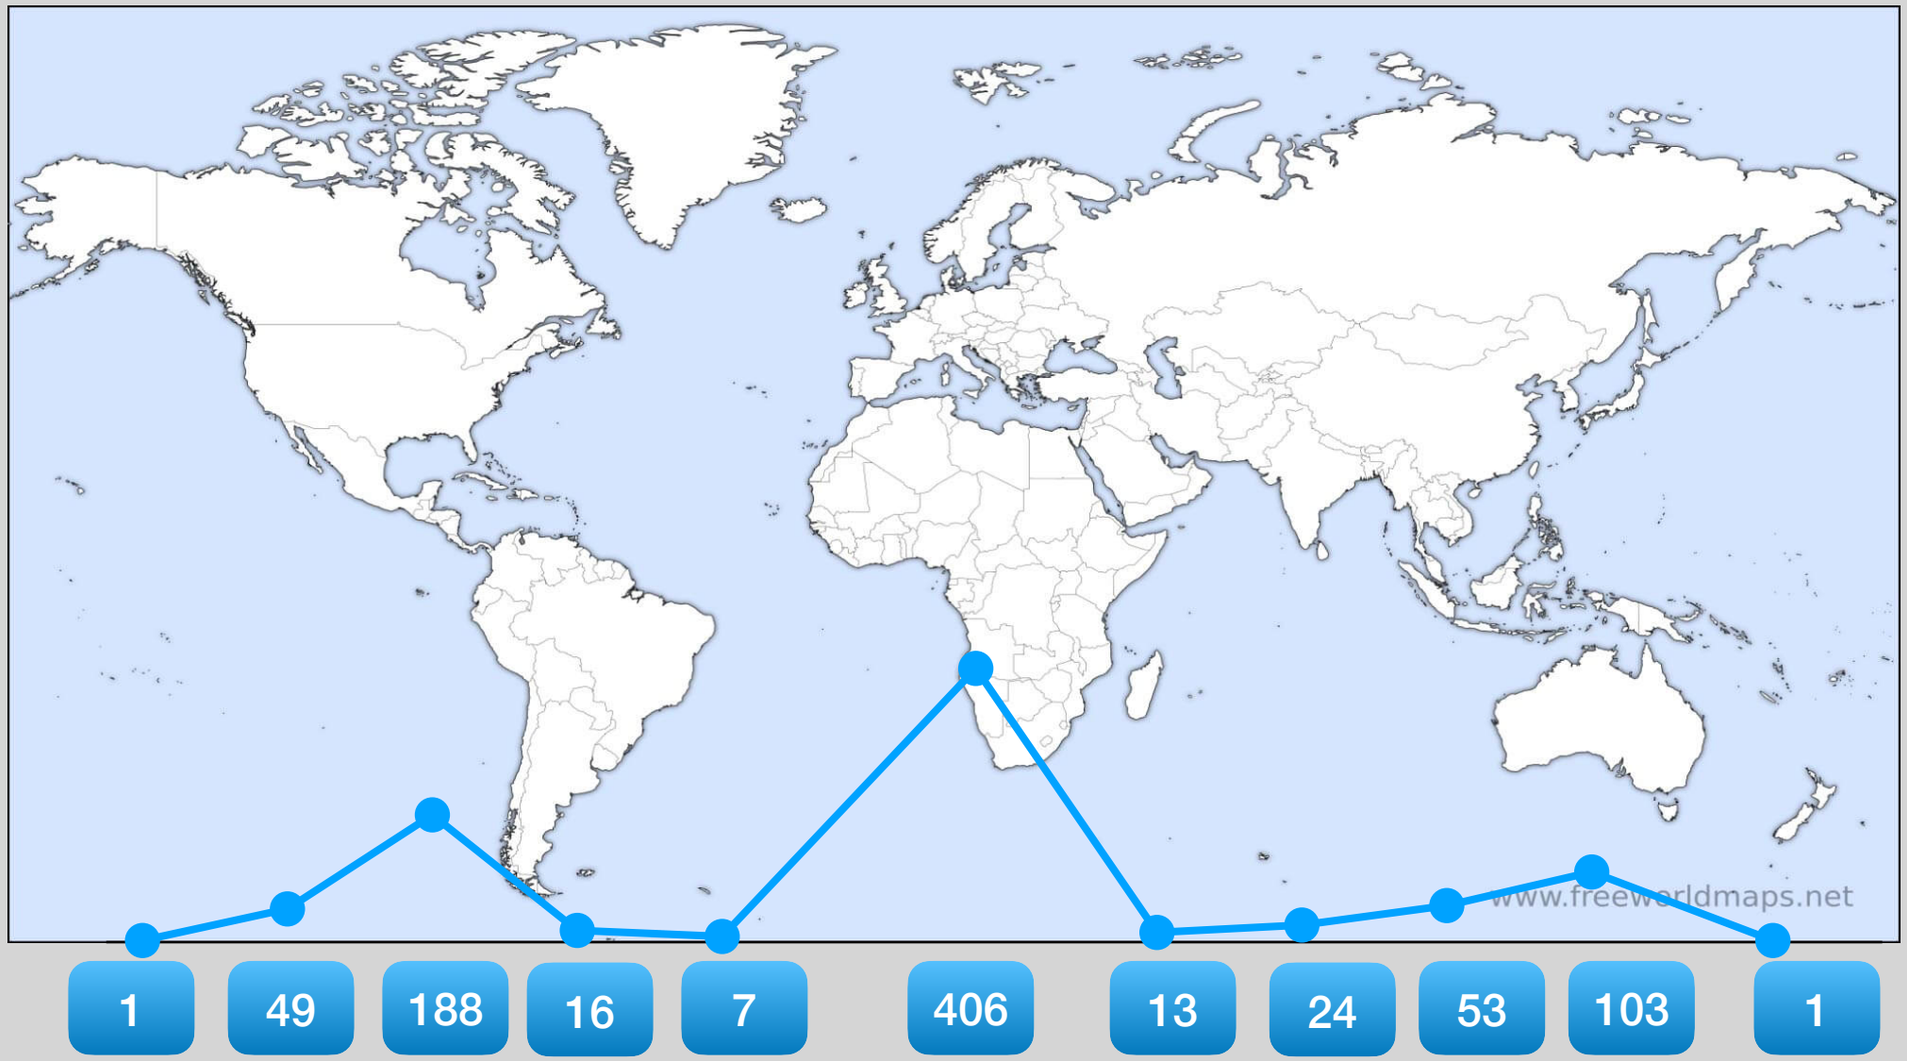
NSF

U.S. DEPARTMENT OF ENERGY

We also thank Brookhaven National Laboratory, Thomas Jefferson National Accelerator Facility, and the NP office of the United States National Science Foundation, for their support for young participants.

LATTICE 21

The 38th International Symposium on Lattice Field Theory



Almost 900 participants, >300 students, 635 presentations, every timezone grouping

LATTICE 21

The 38th International Symposium on Lattice Field Theory

- 25 plenary talks
  - Reviews and topical talks
  - External talks focusing on (amongst others)
    - Hadron structure and the EIC (Iain Stewart and Abhay Deshpande)
    - Diversity in STEM (Asia Eaton)
- Nobel laureate Frank Wilczek will give a public lecture on “QCD: the glory and the power”
- 4 tutorials, 2 careers panels, and many social events to participate in
- Best poster prize and random participation giveaways
- Conference photo on Wednesday

LATTICE 21

The 38th International Symposium on Lattice Field Theory

Throughout the Lattice 2021 conference experience you have agreed to:

- **Behave professionally in personal interactions as well as in any other form of communication including social media.** Harassment and sexist, racist, or exclusionary comments or jokes are not appropriate. Harassment includes sustained disruption of talks or other events, inappropriate physical contact, sexual attention or innuendo, deliberate intimidation, stalking, and photography or recording of an individual without consent. It also includes, but is not limited to, offensive comments related to gender identity, sexual orientation, disability, physical appearance, body size, race, nationality, or the religion or non-religion of participants.

- **Be kind to others and not insult or put down attendees or other individuals associated with the conference.** Scientific discussion and criticism is vital and should be conducted in this spirit and be appropriate for a professional audience that includes people of many different backgrounds.

If participants wish to share photos of a speaker/audience member on social media, we strongly recommend that they first obtain the speaker's permission. Participants may share the contents of talks/slides via social media unless speakers have asked that specific details/slides should not be shared.

Participants can report any violation of the conference guidelines to any member of the Lattice Diversity and Inclusion Committee or to the conference co-chairs. Such reports will be treated confidentially. Reports can also be submitted anonymously via the link on the indico code of conduct page
