# Some results for the updated Turnaround Loop Lattice
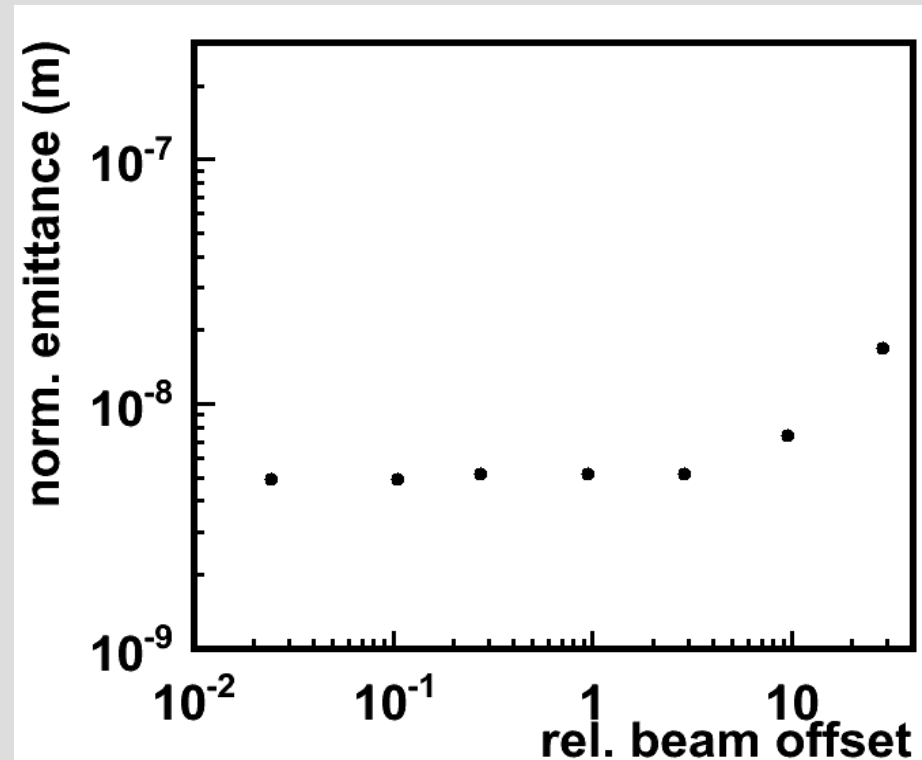

Jochem Snuverink

7-7-10

Emittance growth in TA due to beamoffset

Old Lattice

New Lattice

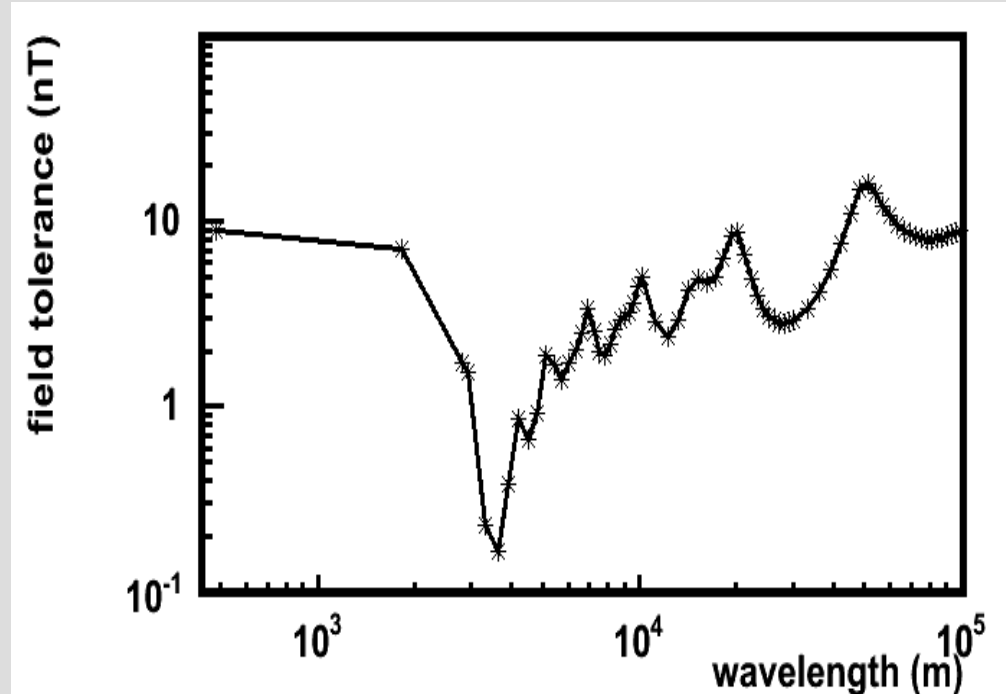

1 beam offset ≈ 10 μm

Sensitivity strayfields RTML + TA Emittance

Old Lattice

New Lattice

Plans

- Finalise results on strayfields for CDR

- No new RTML studies for the moment

- Integrate/put scripts and simulations in repository
