Search for Large Extra Dimensions at CMS (15' + 5')

Friday 10 June 2011 17:30 (20 minutes)

We present the results of a search for large extra spatial dimensions with the pp collisions at 7 TeV collected with CMS in 2010. No excess of events above the standard model predictions has been found. Limits are set on the effective Planck scale.

Presenter: TSANG, Ka Vang (Department of Physics - Brown University)

Session Classification: 5F Parallel - BSM
