

Ninth International Fermi Symposium

Tuesday, 13 April 2021

Diffuse Gamma Rays & Cosmic Rays: Parallel-4 (15:00 - 16:30)

-Conveners: Isabelle Grenier

| time | [id] title | presenter |
|-------|---|------------------------|
| 15:00 | [31] On the measurement of handedness in Fermi Large Area Telescope data | JOHANNESSON, Gudlaugur |
| 15:15 | [32] Updated Interstellar Inverse Compton Models and Dependency from the Large-Scale Magnetic Field | ORLANDO, Elena |
| 15:30 | [33] Study of the Cosmic Rays and Interstellar Medium in local HI Clouds using Fermi-LAT Gamma-Ray Observations | MIZUNO, Tsunefumi |
| 15:45 | [34] Discovery of 100 TeV gamma-rays from HESS J1702-420: a new PeVatron candidate | GIUNTI, Luca |
| 16:00 | [35] Search for features in the cosmic-ray electron and positron energy spectra | LOPARCO, Francesco |
| 16:15 | [36] The ASTRI Mini-Array: a breakthrough in the Cosmic Ray study | CARDILLO, Martina |
