

Ninth International Fermi Symposium

Tuesday, 13 April 2021

Exploring the Cosmos: AGN-1: Parallel-5 (15:00 - 16:30)

-Conveners: Hartmut Winkler

| time | [id] title | presenter |
|-------|--|---------------------|
| 15:00 | [37] Unbiased Monitoring of Active Galactic Nuclei in Gamma Rays | DORNER, Daniela |
| 15:15 | [38] The Fermi-LAT view of misaligned Active Galactic Nuclei | GIROLETTI, Marcello |
| 15:30 | [39] Multiwavelength observations in 2019-2020 of a new very-high-energy gamma-ray emitter: the flat spectrum radio quasar QSO B1420+326 | SITAREK, Julian |
| 15:45 | [40] Modelling blazar SEDs and spectral variability with time-dependent diffusive shock acceleration | BOETTCHER, Markus |
| 16:00 | [41] Gamma-ray Flare and Optical Polarization Angle Swing Reveal Magnetic Reconnection in Blazars | ZHANG, Haocheng |
| 16:15 | [42] Jet physics of gamma-ray-emitting narrow-line Seyfert 1 galaxies | D'AMMANDO, Filippo |
