

Ninth International Fermi Symposium

Wednesday, 14 April 2021

Exploring Connections: Neutrinos and Gamma Rays: Parallel-7 (18:15 - 19:45)

-Conveners: Markus Ahlers

time	[id] title	presenter
18:15	[61] Multimessenger follow-up of high energy neutrino events using Fermi-GBM	WOOD, Joshua
18:30	[62] 12.5 Years of Fermi LAT Flare Advocate Service	CIPRINI, Stefano
18:45	[63] Patterns in the multi-wavelength behavior of neutrino emitting blazar candidates	GARRAPPA, Simone
19:00	[64] Searching for the sources of high-energy astrophysical neutrinos with VERITAS	JIN, Weidong
19:15	[65] Multimessenger tests of high-energy neutrino production in blazars	OIKONOMOU, Foteini
19:30	[66] Seeking the Link between IceCube High-Energy Neutrinos and the Unresolved Gamma-ray Background	NEGRO, Michela
